About this Report

This Report is CastleNet Technology Inc.'s (hereinafter referred to as "CastleNet," "the Company," or "we") first voluntary sustainability report. The Report is available in both Chinese and English versions and can be accessed on the Company's website under the "Corporate Governance - Sustainability Committee" section for stakeholders and information users to review at any time.

Editorial Principles

Compliance/Reference

- Global Reporting Initiative (GRI) : GRI Sustainability Reporting Standards, GRI Standards 2021
- Sustainability Accounting Standard Board, SASB (SICS®) : Technology & Communications/Hardware
- Taiwan Stock Exchange (TWSE): Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, Rules Governing the Preparation and Filing of Sustainability Reports by TWSE Listed Companies
- United Nations: Sustainable Development Goals (SDGs)
- Financial Stability Board (FSB) : Task Force on Climate-related Financial Disclosures (TCFD)
- Adhering to the RBA (Responsible Business Alliance) standards and other international and industry guidelines.

This Report aims to cover major issues of concern to stakeholders as comprehensively as possible and to demonstrate the Company's sustainability practices in its operations.

Report Period

The period covered by this Report falls within the financial year 2023 (from January 1, 2023 through December 31).

Scope of the Report

The scope of this report includes CastleNet's business locations, including the Taipei Daye Office and Hsinchu Office. Subsidiaries are not included in the disclosure scope. The "2023 Sustainability Report" is the inaugural issue and does not involve information restatements.

Management Approach

The financial data disclosed in this Report is the consolidated financial information reviewed, audited, and published by PwC Taiwan in accordance with International Financial Reporting Standards (IFRS), with amounts stated in New Taiwan dollars. Other data or content in the Report were compiled and calculated by respective departments using commonly accepted numerical descriptions and the principle of rounding, and provided to the report editing team for the preparation of the Report. The completed report is examined and confirmed by department heads before being submitted to the Chairman for review and the Board of Directors for approval to go through the internal review process. The Company's ISO 9001 Quality Management System undergoes annual external verification and internal audits to ensure data accuracy. The sustainability report assurance process will align with TWSE/TPEX-listed companies' sustainability development roadmap, targeting completion by 2027.

Message from Chairman

In 2023, due to escalating geopolitical conflicts and rising interest rates, the global economy plunged into a slump, with fragile market confidence and increasingly evident uncertainties. Natural disasters and extreme weather events continued to pose significant short-term global threats. The burden of rising living costs led to a sharp decline in demand, causing end customers' inventories to rise and forcing delays in product shipment plans, which resulted in destocking difficulties and increased inventory pressure. The complex interrelations among various risks suggest that compounded risk scenarios will become a trend and present major challenges in the future.

To address these challenges and fulfill our social responsibilities for sustainable operations and environmental protection, we will continue to follow KINGPO Group's direction by implementing various projects and developing customer services in different regions worldwide to expand business opportunities. Meanwhile, under the guidance of green supply chains and product design, we will regularly review component and product sales strategies, striving to find the most favorable balance to ensure competitive product pricing. We will also focus on ESG sustainability and achieving carbon reduction goals while enhancing production quality management and integrating product sales to improve overall revenue stability. Regarding the work environment, we remain committed to creating an excellent working environment that allows idealistic and ambitious employees to reach their full potential. The challenging year of 2023 is behind us, and the future looks brighter as we move together toward a hopeful tomorrow.

CastleNet Technology Inc.

Chairman

Ying Chang

Chapter 1 Operations and Performance

1.1 Company Profile

CastleNet was established in 1998, focusing on broadband network communications as a professional OBM/ODM manufacturer of networking equipment. The Company specializes in the development, manufacturing, and sales of products such as Broadband Cable CPE, Mesh WiFi, and xPON. As one of the leading companies in Taiwan's CPE industry, CastleNet is a major supplier of broadband modems in the nation, with its products primarily marketed in Europe, South America, Japan, and South Korea. Its quality and reliability have long been recognized by the networking industry and its customers.

CastleNet possesses expertise in the development and manufacturing of Wide Area Network (WAN), Local Area Network (LAN), and wireless technologies, offering comprehensive solutions to customers that encompass development design, production planning, marketing applications, and after-sales service. By leveraging its rapid market response in development and mass production capabilities, CastleNet effectively meets the customized demands of cable television multiple system operators (MSOs), telecom operators, and internet service providers (ISPs).

The Company is a member of the KINPO GROUP, with its parent company being KINPO Electronics, Inc. (hereinafter referred to as "KINPO").

1.2 Operating Locations

CastleNet has accumulated years of lean production technology, with its main production sites located in Southeast Asia. This allows the Company to offer customers the highest quality products and services, while strategically positioning its production sites close to markets to lower customer logistics costs and achieve supply chain carbon reduction goals. Internally, the Company uses a highly efficient ERP platform to strengthen internal management and provide customers with accurate shipping information. By leveraging an app-based data management system, CastleNet overcomes the limitations of time and space, and creates a win-win situation with real-time management applications for both the Company and its customers.

Basic Company Information

Company Name	CastleNet Inc.
Stock Code	8059
Headquarters Address	No. 14, Ln. 141, Sec. 3, Beishen Rd., Shenkeng Dist., New Taipei City 222404, Taiwan (R.O.C.)
Management Team	Ying Chang
Headcount	91 人
Lines of Business	To design, develop, produce, and sale the products such as Broadband Cable CPE products, Mesh Wi-Fi system products, and ONT products.
Date of Incorporation	June 26, 1998

Operating Revenue	NT 5.6 million
Company Website	https://www.castlenet.com.tw/tw

Note: The amount of common stock capital as of December 31, 2023.

1.3 Operational Overview

CastleNet currently holds approximately a 1% share of the global market, with its primary business concentrated in regions such as Turkey, South Korea, Japan, and Central and South America. Despite changes in the market environment, CastleNet remains committed to OBM

(Original Brand Manufacturing) as its main business model. Leveraging its strong R&D capabilities and years of marketing experience, the Company actively partners with system integrators across various regions. Meanwhile, CastleNet is dedicated to exploring emerging markets to expand business opportunities, boost product competitiveness, and further bolster the Company's value.

Currently, over 80% of CastleNet's shipped products feature wireless network capabilities, primarily high-end home routers. This integrated approach to R&D, manufacturing, sales, and system integration differentiates CastleNet from competitors that only engage in contract manufacturing, enabling CastleNet to interact directly with end-users and achieve direct sales. Looking ahead, CastleNet will continue to focus on product development and closely collaborate with customers to respond flexibly to market demands. The Company will continually enhance its innovation capabilities to provide more valuable services to customers while striving for higher-quality products. Going forward, CastleNet is expected to achieve significant growth.

Operating Share of Product

Unit : %

- Broadband Cable CPE product: Cable Modem, Cable Router, EMTA Gateway, Cable Modem Module.
- Mesh Wi-Fi system products: Mesh Wi-Fi Controller, Mesh Wi-Fi Extender, Wi-Fi management system and premise application.

Chapter 2 ESG Governance

2.1 ESG Governance Organization

In accordance with the "Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies," CastleNet has established a Sustainability Committee, which is overseen and guided by the Board of Directors to ensure the implementation of the Company's sustainability initiatives. The Sustainability Committee is chaired by the President, with members including department heads and other designated personnel. The committee organizes necessary working groups based on the professional functions of each department, identifies relevant sustainability issues according to their respective responsibilities and authority, sets specific sustainability goals, promotes and ensures execution, reviews and tracks results, and reports to the Board of Directors at least once a year.

Sustainability Management Organization Chart

Sustainability Management Organization and Operations

Organization	Frequency of Meetings / Issuance	Responsibilities
Board of Directors	Annually 2023: Once	<ul style="list-style-type: none"> At least once a year, review the performance report of the Sustainability Committee based on the Company's operational status and current developments, and continuously monitor the Company's sustainability status and performance.
Sustainability Committee	Annually 2023: Once	<ul style="list-style-type: none"> Responsible for setting the vision, goals, policies, and strategies for sustainable development, overseeing capital expenditures required for sustainability, and supervising and guiding the implementation of sustainability efforts. Chaired by the President, with high-level executives serving as committee members, forming the Company's highest decision-making and execution body for sustainability, the Committee maintains two-way communication with the Board of Directors to enhance implementation effectiveness. Optimize the use of external developments (e.g.,

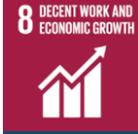

Organization	Frequency of Meetings / Issuance	Responsibilities
		regulations, economy, market, macro-environment changes) and internal resources (e.g., corporate development and vision) to formulate specific sustainability goals for the Company.

*The Company established the Sustainability Committee in 2022, chaired by the President. The committee leads departmental heads in developing and implementing sustainability initiatives and reports the progress to the Board of Directors at least once a year.

2.2 Sustainability Blueprint and UN Sustainable Development Goals

CastleNet's Sustainability Vision and Policies

<p>Vision To pursue sustainable business operations and integrate with the environment and society, becoming the most trusted partner for stakeholders.</p> <p>Policies Following the parent company KINPO's management philosophy of "Innovation, Harmony, Transcendence," and upholding core values of environmental, economic, and social sustainability, we are committed to advancing the five key areas of corporate governance, employee care, social engagement, supply chain management, and sustainable production to achieve CastleNet's sustainability goals.</p>

2.3 Analysis of Material Topics

CastleNet's sustainability report is prepared in accordance with the GRI Sustainability Reporting Standards, using materiality as the fundamental principle for determining the content and level of disclosure in the report. Higher materiality indicates a greater risk associated with the issue; if not properly managed, it could impact the Company's operations, stakeholder decisions, and result in serious environmental and social consequences. The list of potential material issues for this year is based on factors such as institutional investors' sustainability evaluation concerns, major global sustainability trends and issues, and material topics from benchmark companies. Once the issue list is established, materiality is assessed based on three criteria: "importance to business operations," "impact on stakeholder assessment and decision-making," and "external economic, environmental, and social impacts." This analysis determines the placement of each issue on the materiality matrix, which is then adjusted and finalized before submission for approval by the Chairman. The analysis process is outlined as follows:

Material Topic Analysis Process

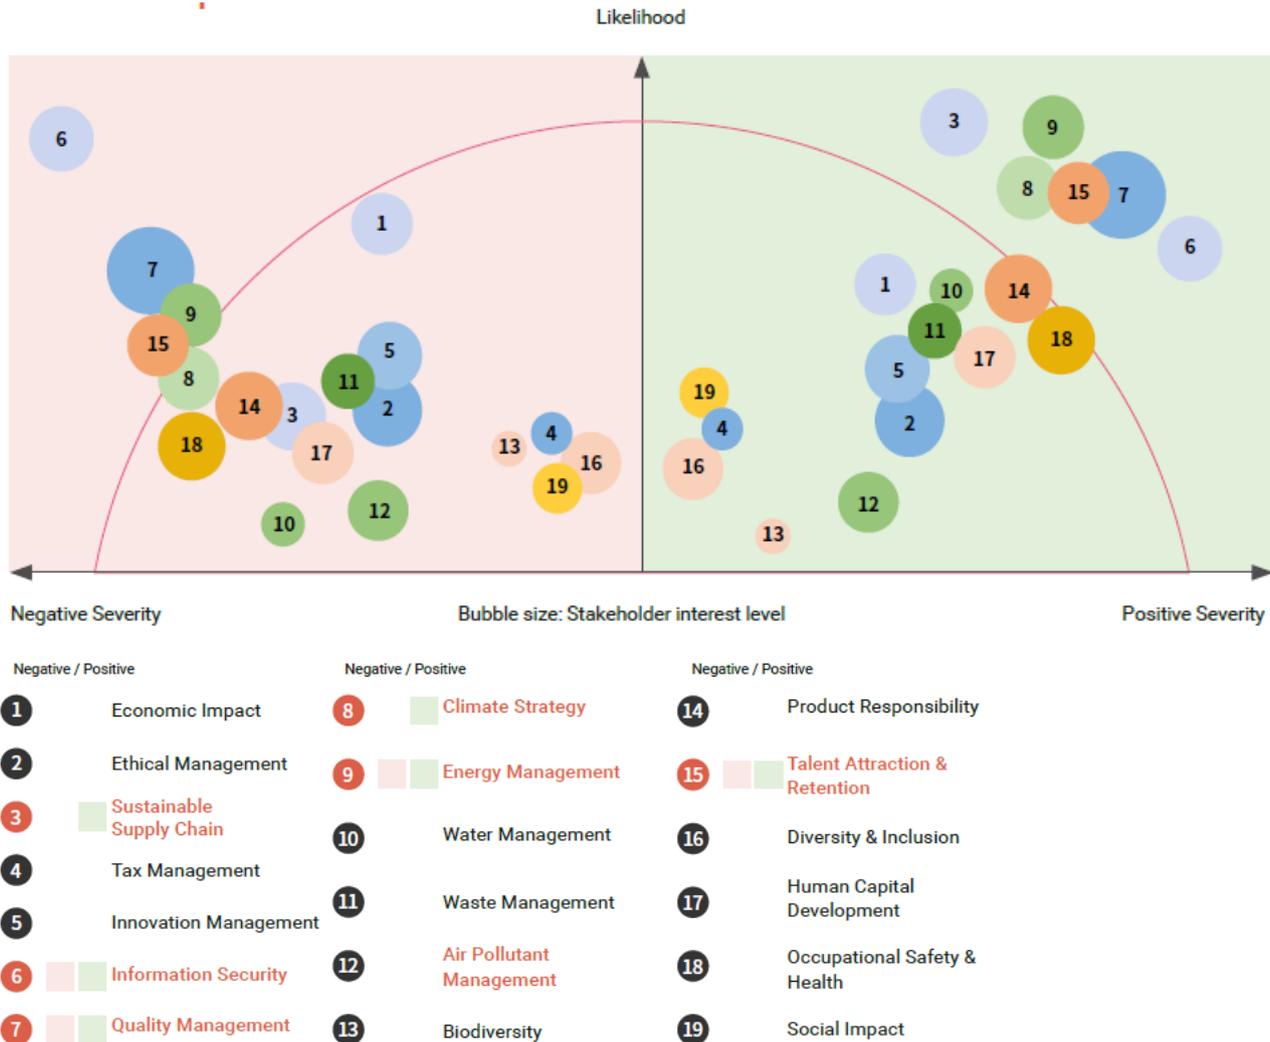

We have revamped our list of material topics based on the previous year's material topics, taking into account the SASB, the TCFD proposal, CDP, and key economic, social and environmental issues on a global scale and among peers. Following a selection process, we have narrowed down

the list to 19 topics for 2023, including 6 on environmental sustainability, 6 on social inclusion and 7 on sustainable governance.

CastleNet's List of Material Topics for 2023

We distributed questionnaires on sustainability issues and impact analysis to examine the level of stakeholder interest in each material topic and the positive and negative, actual and potential impacts and likelihood of occurrence. Based on the results of the analysis, we ranked CastleNet's material topics and adapted the materiality of the topics with the professional advice of external consultants. The issues outside of the red semi-circle are CastleNet's material topics as assessed.

Material Topic List Matrix

Based on the results of the material topics analysis, our list of material topics was reviewed by the Sustainability Committee and confirmed by consensus. In 2023, CastleNet identified 6 material topics, including 2 on the environment, 1 on society and 3 on governance.

CastleNet's List of Material Topics for 2023

Aspects	Material Topics	Corresponding GRI Topics	Significance to CastleNet and Coping Strategies	Corresponding Report Sections
Environmental Sustainability (E)	Climate Strategy	GRI 201 Economic Performance	By taking action to support international initiatives and national policies, CastleNet identified the risks and crises associated with climate change, built	Chapter 5 Environmental Sustainability

Aspects	Material Topics	Corresponding GRI Topics	Significance to CastleNet and Coping Strategies	Corresponding Report Sections
			resilience to climate change in advance, and mitigated the risk of financial impact. We introduced a TCFD framework and energy management approach and set medium and long-term energy-saving targets and maintained a PDCA cycle to ensure that energy-saving goals were reached.	
Social Inclusion (S)	Talent Attraction & Retention	GRI 202 Market Presence GRI 401 Employment	Talent is the fundamental and most valuable asset of an enterprise, and we need to establish a comprehensive recruitment and retention strategy and plan to ensure that we do not lose key personnel due to their retirement, booming job markets or poaching by other companies. CastleNet has built a diverse and inclusive workplace environment through multiple and innovative recruitment channels to bring in talented people from around the world, and is dedicated to building a happy workplace and joining forces with customers for mutual sustainable growth.	Chapter 7 Employee Wellbeing
Sustainable Governance (G)	Sustainable Supply Chain	GRI 308 Supplier Environmental Assessment GRI 414 Supplier Social Assessment	Through sustainable supply chain management, CastleNet partners with its suppliers and customers to create stable and mutually beneficial relationships that create operational performance while lessening its impact on the environment and society.	6.5 Sustainable Supply Chain
	Quality Management	GRI 417 Marketing and Labeling	By upgrading quality in all aspects of R&D, production and management, CastleNet is able to consistently provide quality products and services to enhance the company's core competitiveness and create a win-win situation with our customers. Insisting on the quality policy of "providing products and services that satisfy our customers, doing the job right from the outset, and constantly seeking to improve quality," we have established a comprehensive and sustainable quality management system through various quality management certifications to ensure that we furnish customers with products and services of the highest caliber and boost the overall competitiveness of our industrial chain.	4.2 Quality Management
	Information Security	GRI 418 Customer Privacy	CastleNet attaches great importance to information security, ensuring the stability and security of information and compliance with legal regulations through sound systems and effective monitoring. We hold ourselves to a high	3.4 Information Security Management

Aspects	Material Topics	Corresponding GRI Topics	Significance to CastleNet and Coping Strategies	Corresponding Report Sections
			standard by continuously refining our internal management and obtaining ISO information security certification to protect the confidentiality, integrity, and availability of our information, and the reliability of our information equipment and network systems. Further, we raise our employees' awareness of information security and ensure that these resources are guarded against interference, destruction, intrusion, or any adverse actions and attempts that may compromise the interests of our customers and the Company.	

2.4 Stakeholder Communication

By referring to the GRI Standards and adopting the AA1000 Stakeholder Engagement Standard (SES) as the criteria for determination, CastleNet has identified 6 major stakeholders, including employees, customers, suppliers, government agencies, shareholders/investors, and the media, based on an analysis of the five essential principles of accountability, influence, intensity, frequency of communication, and dependency. By consistently communicating with stakeholders through various channels and responding to their needs, we make sure that the direction of the Company's operations meets the expectations of our stakeholders.

Stakeholder Communication Outcomes for 2023

Stakeholder	Key Communication Issues	Communication Channels and Contact Points	Frequency	Our response and actions in 2023
Employees	<ul style="list-style-type: none"> Labor-Management Relations Understanding employee feedback and opinions 	<ul style="list-style-type: none"> Labor-management meetings Staff Suggestion Box 	<ul style="list-style-type: none"> Organized quarterly Processed immediately 	<ul style="list-style-type: none"> 4 employee Welfare Committee meetings Held 4 labor-management meetings Conducted performance appraisals as planned, one each in the first and second half of the year 0 employee grievance cases

Participation in External Organizations

By participating in associations, CastleNet gains access to the latest professional information, which supports the Company's business development and offers opportunities to build new working relationships. In 2023, CastleNet engaged with a total of three external associations, as listed below:

No.	Name of Associations and Organizations
1	Taiwan Electrical and Electronic Manufacturers' Association
2	CableLabs
3	Wi-Fi Alliance

Chapter 3 Corporate Governance

CastleNet adheres to the principles of ethical management and is committed to establishing a solid corporate governance system, practicing business ethics, observing legal regulations at all operational sites, and fostering a culture of ethics, transparency, and accountability. Our governance goals include strengthening the board structure, optimizing corporate governance, advancing corporate sustainability, and upgrading cybersecurity protections.

3.1 Corporate Governance

CastleNet places great importance on operational transparency and corporate governance. The Company abides by the Company Act, Securities and Exchange Act, and other relevant regulations, while focusing on establishing an effective corporate governance framework, strengthening the board's functions, protecting shareholder rights, enhancing internal controls and auditing, and improving information transparency. By adhering to the ethical management principles, CastleNet has developed various systems and methods to implement the principles of corporate governance, aiming to boost operational performance and achieve sustainable business practices.

We will consistently enhance board effectiveness and improve its functions through corporate governance evaluations, fostering a culture of good governance. A comprehensive stakeholder communication platform will be set up to encourage shareholder engagement. We'll also improve non-financial information disclosure to strengthen corporate governance reporting.

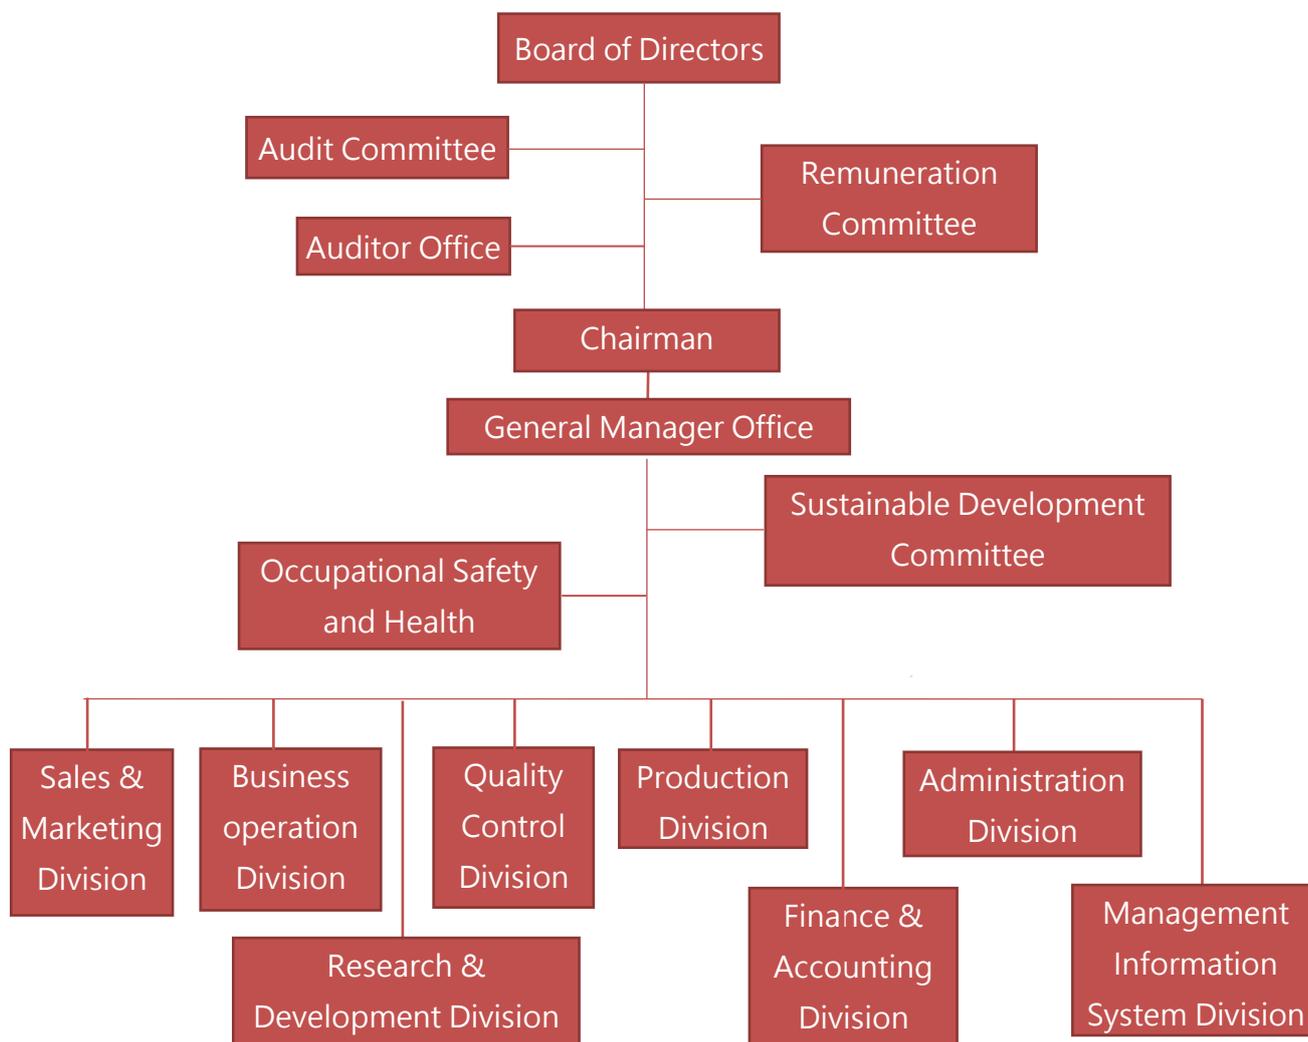

CastleNet's Corporate Governance Strategy

Topic	Corresponding to Corporate Governance Requirements	Content
Regulatory Compliance	Comply with international requirements	Regularly search for international sustainability guidelines and incorporate them into corporate governance planning, and developed a corporate governance charter as required by the competent authorities as a guiding principle for internal corporate governance.
Division of Competences	Strengthen Board functions Foster a sustainable corporate culture	The Board of Directors is composed of members with diverse expertise, backgrounds and experience, and a Compensation Committee and an Audit Committee are established to provide professional advice on corporate governance to the management team and to regularly keep track of operational performance.
Performance Appraisal	Upgrade Board functions Improve corporate governance	Participated in the "Evaluation of Corporate Governance of TWSE/TPEX Listed Companies" by the competent authorities, formulated strategies to strengthen corporate governance, and laid down the "Rules for Performance Evaluation of Board of Directors" to regularly evaluate the performance of the board members and functional committees every year.
Information Disclosure	Boost information transparency	Hold a board meeting at least once a quarter to review the Company's operational performance and discuss important strategies, and make important board resolutions available on the Market Observation Post System and the Company's website for investors to obtain important information about the Company in real time.
Communication & Interaction	Enhance stakeholder communication	The Company holds AGMs and investor conferences on a regular basis to communicate directly with investors and shareholders on corporate governance issues, and prepares and publishes annual reports and CSR reports on the Company's website, while announcing the "Communication and Contact Channels for Stakeholders" on the website to facilitate two-way communication between stakeholders and the Company.

Sustainable Governance Structure

The CastleNet Board of Directors is the highest governing body and major decision-making authority for the Company. Its primary responsibility is to oversee the Company's operations in accordance with laws and company regulations, ensuring compliance with various legal requirements, regulations, and shareholder resolutions. Meanwhile, the board provides professional strategies and advice to the management team to maximize shareholder value and protect the interests of all stakeholders.

The Company's management team, led by the President and comprising the highest executives from each department, fulfills its roles with dedication and expertise to achieve operational and performance goals.

The Board nominates candidates based on fundamental criteria, values, professional knowledge, and skills, with clearly defined qualifications and assessment standards. This process aligns with the Company's Articles of Incorporation, Rules for Election of Directors, Corporate Governance Best Practice Principles, Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies, and Securities and Exchange Act Article 14-2. The Company institutes diverse policies that consider varied professional backgrounds, gender, and fields of expertise, tailored to its in-house operations, business model, and developmental requirements. CastleNet prioritizes expertise and complementarity across different domains to strengthen the integrity of its board structure.

The composition of our Board of Directors is diverse, with members possessing the necessary knowledge, skills, and qualities required to perform their duties. To achieve the ideal goals of corporate governance, the board collectively has capabilities in business judgment, accounting and financial analysis, management, crisis management, industry knowledge, international market perspective, leadership, and decision-making. We believe that a professional, diverse, and independent board composition will contribute to enhancing the board's governance performance. Our Board of Directors currently consists of 10 members, including four independent directors. At present, there is one female director, representing 10% of the board. The age distribution is as

follows: 10% are under 50 years old, 70% are between 51-70 years old, and 20% are over 70 years old. Regarding the tenure of independent directors, 75% have served for less than three years, and 25% have served for three to six years.

Notes:

1. The current Board of Directors is the ninth term, with a tenure from June 27, 2022, to June 26, 2025.
2. Complete background information on the board members, including their education, experience, training, meeting attendance, and positions held in other companies, has been disclosed in the Company's annual report, on the official website, and on the Market Observation Post System (MOPS). Please refer to the "3. Corporate Governance Report" in the 2023 annual report.
3. For details on the diverse composition of the board, please refer to the Company's official website.

CTI Shareholder Information

CTI Board of Directors

Operation of Board of Directors

The Board of Directors exercises its authority based on relevant laws, the Company's articles of incorporation, and the resolutions of the annual shareholders' meeting. The Board formulates the Company's specific business strategies, supervises the performance of the management team, and, with an independent and impartial spirit, provides specialized advice in the areas of operations, technology, and finance. The Board collectively shares responsibility for the Company's strategy, operations, and oversight. When the Board convenes, in addition to the attendance of the audit supervisor to report on the execution of audit tasks, other responsible personnel also attend and are available to answer questions depending on the agenda items.

The Board of Directors convenes regularly to discuss various operational matters of the Company, with the content of these discussions disclosed in accordance with legal requirements. When a matter involves the interests of a board member, the internal conflict of interest avoidance system is strictly followed. In 2023, the actual attendance rate of directors exceeded 97%, and with proxy attendance included, it reached 100%. (For more details on board operations, meeting content, and conflict of interest situations, please refer to the Annual Report: "3. Corporate Governance Report – D. Corporate Governance Operations – (1) Board of Directors Operations.")

Number of Meetings	<ul style="list-style-type: none"> 4 Board meetings were held in 2023 to discuss topics such as the Company's business strategy and governance operations. Over 97% actual attendance at Board meetings in 2023 (100% including delegated attendance).
Sustainability Topics	<ul style="list-style-type: none"> The Company's Sustainability Committee was established on August 5, 2022, following a resolution by the Board of Directors. The committee communicates sustainability-related issues with the Board at least once a year, covering five key areas: environment, society, corporate governance, risk management, and cyber security. The committee also provides updates on relevant plans and progress in these areas. Since its establishment, the Sustainability Committee has reported to the Board on the Company's sustainability implementation, achievements, and future plans on November 10, 2022, and May 10, 2023.

Functional Committees

The Board of Directors is the highest governance body and the key decision-making authority of the Company. It establishes various committees to assist with the quality of the Board's supervision and decision-making. The Board's primary responsibility is to supervise the Company's operations in accordance with laws and Company regulations, ensuring compliance with legal requirements and the Company's Articles of Incorporation, as well as the execution of shareholders'

resolutions. Meanwhile, the Board provides professional strategies and advice to the management team, aiming to maximize shareholder value and protect the rights and interests of all stakeholders.

Operation of Audit Committee

The Company established the Audit Committee to enhance corporate governance and strengthen the professional functions of the Board of Directors and laid down the Audit Committee Charter. The Audit Committee is composed of three independent directors, namely Hsu, Sheng-Haur, Tsai, Chien-Wen, Fu, Chi-Ching and Chen, Yi-Ling, and elected Hsu, Sheng-Haur as convenor.

The Audit Committee of the Company conducts annual meetings with the Company's certified public accountant (CPA) to discuss the review or audit results of quarterly financial statements and other matters mandated by relevant laws and regulations. The Committee also assesses the selection of the CPA and evaluates the independence of both audit and non-audit services provided. The Company's internal audit supervisor regularly presents audit summary reports and holds internal control self-assessment meetings with the Audit Committee according to the annual audit plan. Additionally, the Audit Committee regularly reviews the Company's internal control system, internal audit personnel, compliance with applicable laws and regulations, and the management of existing or potential risks.

During the reporting period, the Company did not have any proposals that were passed by the Board of Directors with more than two-thirds approval without being reviewed and approved by the Audit Committee. Additionally, there were no proposals requiring the avoidance of conflicts of interest by independent directors. In 2023, the Audit Committee held four meetings, with an actual attendance rate of 93% (100% if including proxy attendance). (For details on the Audit Committee's operations and resolutions, please refer to the 2023 Annual Report, "3. Corporate Governance Report – D. Corporate Governance Operations – (2) Audit Committee Operations.")

Operation of Remuneration Committee

The Company's Compensation Committee is composed of three independent directors: Hsu, Sheng-Haur, Tsai, Chien-Wen, and Fu, Chi-Ching, with Hsu, Sheng-Haur serving as the convener. The Committee's responsibilities include regularly assessing and setting the salaries and compensation for directors and managers, and periodically reviewing and updating the policies, systems, standards, and structures for performance evaluation and compensation of directors and managers. This ensures that compensation is aligned with individual and company performance to maintain fairness and attract and retain top talent. In 2023, the Compensation Committee held two meetings, with an actual attendance rate of 100%. (For details on the Compensation Committee's operations and resolutions, please refer to the 2023 Annual Report: "3. Corporate Governance Report – D. Corporate Governance Operations – (4) Composition, Responsibilities, and Operations of the Compensation Committee").

Currently, the plan is to include an annual sustainability performance report in the Compensation Committee's agenda for the fourth quarter of 2024. This will enable the committee to timely assess the alignment between the compensation of the Company's board of directors and senior management with sustainability performance.

Operation of Sustainability Committee

To advance sustainability initiatives, the Company resolved on August 5, 2022, to establish a Sustainability Committee, as approved by the Board of Directors, and adopted the "Sustainability Committee Organizational Regulations." The committee is chaired by the President, with Huang, Chi-Hsien, Director of the President's Office, appointed as the Executive Officer. Committee members include department heads and other designated personnel. The committee first reported on the Company's sustainability performance to the Board of Directors on November 10, 2022, and

provided a second report on May 10, 2023. (For details on the operation of the Sustainability Committee, please refer to the 2023 Annual Report: "3. Corporate Governance Report – D. Corporate Governance Operations – (5) The State of the Company's Promotion of Sustainable Development, Any Deviation from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, and the Reason for Any Such Deviation.")

Evaluation of the performance of the board

To implement corporate governance and enhance the effectiveness of the Board of Directors, the Company has established the "Rules for Performance Evaluation of the Board of Directors and Functional Committees." Since 2021, the Board of Directors has conducted self-assessments, performing internal performance evaluations of the Board, its members, and the functional committees (Audit and Compensation Committees) each year. The results of these evaluations are published in the annual report. The results of the 2023 internal performance evaluation were presented to the Board on March 11, 2024. Furthermore, in the fourth quarter of 2024, the Compensation Committee will include a report on the performance evaluation of the Board and functional committees, which will enable the committee to timely assess the link between director compensation and performance. (For detailed performance evaluation results, please refer to the 2023 Annual Report: "3. Corporate Governance Report – D. Corporate Governance Operations – (1) Board of Directors Operations.")

Internal Performance Evaluation Result in 2023

Measurement Period				
From 1 st January 2023 to 31 th December 2023				
Measurement of Performance Evaluation	Performance Indicators		Average Score	Level
Overall Board of Directors	1. Participation in the Company operation 2. Improvement of the quality of the board of directors' decision making 3. Composition and structure of the board of directors	4. Election and continuing education of directors 5. Internal control	4.89	A
Individual Board Members	1. Alignment of the goals and missions of the company 2. Awareness of the duties of a director 3. Participation in the Company operation	4. Internal relationship and communication 5. The director's professionalism and continuing education 6. Internal control	4.69	A
Functional committees - The Audit Committee	A. Participation in the operation of the company B. Awareness of the duties of the functional committee C. Improvement of quality of decisions made by the functional committee	D. Makeup of the functional committee and election of its members E. Internal control	4.95	A
Functional committees - The Remuneration Committee	A. Participation in the operation of the company B. Awareness of the duties of the functional committee	C. Improvement of quality of decisions made by the functional committee D. Makeup of the functional committee and	4.98	A

Measurement Period				
From 1 st January 2023 to 31 th December 2023				
Measurement of Performance Evaluation	Performance Indicators		Average Score	Level
	election of its members			

* The evaluation results are categorized into five levels: 1: Very Poor (Strongly Disagree); 2: Poor (Disagree); 3: Average (Neutral); 4: Good (Agree); 5: Excellent (Strongly Agree).

Director compensation includes four components: remuneration, retirement benefits, director bonuses, and business execution expenses. In 2023, director compensation amounted to 211.88% of the Company's net income after tax as reported in the financial statements. (For related information, please refer to the 2023 Annual Report: "3. Corporate Governance Report – C. Recent Annual Compensation for Directors, the President, and Vice Presidents – (1) Compensation for Directors (including Independent Directors).")

Operational Performance

Unit: NT\$ K; EPS in NT\$; Ratio %

- In 2023, the Company received NT\$28 K in government green energy subsidies. The annual surplus was used to offset losses, and no dividends were distributed.

In 2023, amid an economic recession and heightened global economic and industrial uncertainties, inflation and a worldwide economic slowdown caused a market shift from demand to oversupply. Furthermore, major customers in Central and South America reduced their demand as a result of currency devaluation and inflation, leading to increased client inventory and delays in orders and shipments. This situation dealt a severe blow to CastleNet's revenue for the year.

Despite a poor revenue performance in 2023, we have made progress in new product development and business expansion. In Central and South America, we have obtained several certifications for our broadband network products, including Wi-Fi Mesh Routers and Cable Modems. We have also introduced a new fiber optic broadband gateway and have started testing with clients. Several of our Mesh WiFi 6 products have passed Plume OpenSync certification and customer testing. Additionally, CastleNet has collaborated with Broadcom and operators to utilize the BAS analytics system, which helps operators securely monitor end-user usage. This partnership provides clients with additional value-added services, supports their after-sales services, and fosters a positive cycle of business opportunities.

Key Management Team

CastleNet focuses on developing key management team by considering the organizational and human capabilities needed to achieve future development goals. The Company emphasizes not only excellent strategic planning and management skills but also commitment to and practice of its core values: innovation, harmony, and transcendence. Our senior managers possess extensive industry experience and continuously sharpen their professional skills, increasing both the breadth and depth of their practical expertise. Additionally, our Compensation Committee regularly reviews the performance and development of senior managers according to the responsibilities of functional committees, ensuring that their development aligns with the organization's direction.

AGM Operations

CastleNet values interaction and communication with investors, using annual general meetings (AGMs) to foster forward-looking operations and promote the Company's sustainable development. In 2023, the Company held one AGM and two investor conferences. To enhance the transparency of information disclosure, improve the quality of disclosures, and align with international standards, CastleNet has been uploading financial statements in English to the MOPS since the fourth quarter of 2019. Starting from 2022, the Company began publishing material information, meeting notices, and the meeting handbook in English, and from 2023, it started issuing the annual report in English for stakeholder review. (For AGM major resolutions and post-meeting execution, please refer to the 2023 Annual Report, "3. Corporate Governance Report, D. Corporate Governance Operations, (11) Material Resolutions of Annual Shareholders' Meetings and Board Meetings During the Most Recent Fiscal Year or During the Current Fiscal Year up to the Date of Publication of the Annual Report. For a list of major shareholders, see "4. Fundraising Status, A. Capital and Shares, (4) Major Shareholders List.)

CastleNet's official website also features an investor section. For information on investor conferences and the annual general meetings (AGMs), please visit the shareholder section or scan the QR code below for quick access.

3.2 Ethical Management and Compliance

Ethical Management and Standards

Robust corporate governance is the foundation of the Company's sustainable operations, with ethical management being crucial for business success and sustainability. We firmly believe that ethical practice is not only a business philosophy but also the cornerstone of our culture. We uphold the principle that everyone should be treated fairly, regardless of race, gender, age, religion, or other factors. These ethical standards guide our actions, strengthen our reputation, foster internal collaboration, and create a healthy and stable workplace.

To ensure adherence to its ethical management policies and compliance with relevant laws, the Company has established corresponding internal regulations for different stakeholders, which are approved by the Board of Directors and published on the website. We periodically disclose or update our ethical management policies through internal regulations, annual reports, the corporate website, and other publications. Additionally, we conduct internal training on ethical management

and regularly promote our core values to raise employee awareness and strengthen corporate governance. We believe that by conforming to ethical practices and standards, CastleNet can achieve long-term success and make a positive contribution to society.

Ethical Management Practices and Actions in 2023

Stakeholders	Relevant Policies/ Requirements/Contracts	Management Actions
Board of Directors	<ol style="list-style-type: none"> 1. Rules of Procedure for Board of Directors Meetings 2. Regulations concerning the Board of Directors 3. Corporate Governance Code 4. If violations of the "Anti-Bribery Agreement" or contract resulted in damages, we would pursue criminal liability as stipulated in the agreement, impose punitive breach penalties, and take immediate action to cease transactions, revoke or terminate contracts or agreements with the signatory.

Anti-Corruption and Anti-Bribery

The "Anti-Corruption Policy" of CastleNet is announced and published on our website to establish clear and uniform standards. We uphold the principle of not accepting improper gifts or special favors and expect our customers, suppliers, business partners, and other stakeholders to understand and support KINPO's core ethical values together with us. We strictly prohibit all employees from accepting any form of bribery or other improper benefits. All current and new employees must also participate in confidentiality and ethical education programs to enhance their awareness and implementation of ethical standards. We also require all business partners to subscribe to an "Anti-Bribery Agreement". Our cooperating suppliers are forbidden from offering bribes to employees or their relatives/friends. In cases where damages occur due to breaches of ethical standards, we will seek compensation according to agreements and may take necessary legal actions, including termination of cooperation. Additionally, we have established a grievance channel to receive and investigate allegations of corruption and bribery. We handle all allegations with strict confidentiality and ensure no retaliation against whistleblowers, whether they are employees or business partners, who report contraventions of our Anti-Corruption Policies.

Regulatory Compliance and Effectiveness

With CastleNet's business spanning globally, we continuously monitor the impact of international policies and regulations on our operations and finances. Concurrently, we establish various corporate governance standards and regularly offer related educational training sessions. Our commitment is to ensure all business practices observe relevant local laws, safeguarding employees from conflicts of interest that could jeopardize company interests. We pledge to respect intellectual property rights and privacy, and refrain from engaging in business activities that violate the Fair Trade Act and antitrust laws. Should employees have concerns regarding regulations, measures, or penalties while conducting business, they may apply through their respective business units for guidance from the Legal and Intellectual Property Office.

Protection of Personal Data (Privacy)

When collecting personal data, we abide by the laws and regulations of each country to ensure legality and privacy protection. Our company is set to establish a data protection policy to express a firm commitment to respecting and safeguarding the privacy of every individual, including employees, customers, and clients. Regarding legal and ethical obligations for personal information protection, we pledge to:

1. Take all reasonable measures to protect all personal information from loss, misuse, unauthorized access, or disclosure;
2. Not retain personal information longer than necessary to fulfill the purposes for which it was collected;
3. Not sell, trade, transfer, share, or otherwise disclose personal information to any third party unless mandated by law or regulations;
4. Require strict compliance with this policy from our employees, agents, managers, directors, and other personnel.

In 2023, no significant violations related to business ethics, personal data protection, fair competition, intellectual property rights, human rights, or environmental protection were identified. To ensure effective ethical management and compliance with laws, we are stepping up employee education and training to ensure all staff understand and observe relevant policies and regulations.

Reinforced the prohibition against using illegal software through repeated announcements to employees. 6. Conducted regular anti-piracy software education and training courses in collaboration with the IT Center and KINPO's Legal team. 	No infringement of intellectual property rights.

Whistleblowing System and Whistleblower Protection

Employees who come across illegal or unethical practices in the workplace can report them through the proper channels. CastleNet has set up a whistleblowing box, and has established specific reporting channels, handling procedures, rewards and punishments in the "Code of Ethical Conduct," "Procedures for Ethical Management and Guidelines for Conduct," "Employee Grievance Handling Regulations" and "Reward and Punishment Management Regulations." The Auditing Office is taking charge of the whistleblowing mailboxes and is responsible for case acceptance and filing. The supervisor of Auditing Office will assign a project leader or investigation team to investigate the relevant facts then submits it to the President Office. A dedicated department and staff are assigned to investigate and handle complaints in a protected and confidential manner Personnel who have a conflict of interest in the case should also recuse themselves from the investigation. The officer involved in the probe must maintain the confidentiality of the person filing the report. The rights of the person lodging the complaint should be protected and the person (s) concerned should be safeguarded against improper treatment or retaliation. No reported cases in 2023.

Internal Control and Audit System

CastleNet has set up an independent auditing office under the Board of Directors to assist the Board and managers in inspecting and reviewing deficiencies in internal control systems and gauging the effectiveness and efficiency of operations. When performing internal audit duties, internal auditors should provide timely suggestions for improvement to ensure that the internal control system is applied effectively on an ongoing basis and that the efficient operations, reliable reporting and compliance with relevant laws and regulations are achieved and serve as the basis for reviewing and amending the internal control system. Upon submission of audit reports and tracking reports for approval, they are forwarded to the independent directors for review and inspection at the end of the next month following the conclusion of the audit items. In addition to reporting audit results to the independent directors on a regular basis, the internal auditing officer also attends regular Board meetings to brief Board members on the execution of audit activities. Meanwhile, the auditing office supervises and urges and assists each unit to conduct self-assessment and inspection of the internal control system annually to make sure that the Board and managers are aware of the effects of the operation. Furthermore, the appointment and dismissal of the internal auditing officer is subject to the approval of the Board of Directors and in accordance with the Corporate Governance Best Practice Principles laid down by the Company, the appointment and dismissal, appraisal and remuneration of the internal auditors shall be presented by the auditing officer to the Chairman for ratification. The auditing office prepares an audit plan based on risk assessment and regulations, turns it in to the Board of Directors for endorsement before implementation, and conducts ad hoc audits or reviews as necessary. According to the annual audit plan, the internal auditors execute the operation plan for individual audit cases and disclose the deficiencies and irregularities of the internal control system found by the audit in the audit report, providing timely suggestions for rectification, and following up after the report is filed. All audit items in the 2023 audit plan endorsed by the Board of Directors have been completed and filed. The audit supervisor is responsible for receiving reports from the reporting email and filing cases, and checking that there were no reported cases in 2023.

Internal Control and Audit Process

The audit report and tracking report are submitted to each of the independent directors for review after they have been handed over to the Chairman. The independent directors may contact the auditing officer if they need further information or instructions. The Company holds quarterly meetings of the Audit Committee and the Board of Directors, at which the auditing officer is required to attend and present a summary report of the quarterly audits. We also convene separate meetings annually with directors, internal auditing officers and independent auditors, with the internal auditing officers reporting separately to the independent directors on auditing activities and annual planning and other matters required by law. (For the Audit Committee's report and communications, please refer to the Annual Report 2023, III. Corporate Governance Report - 4. Corporate Governance Operation - 2) Audit Committee Operation)

3.3 Risk Management

In 2022, CastleNet introduced a risk management policy approved by the Board of Directors. This policy outlines the Company's commitment to a balanced risk management strategy, considering the overall impact of adverse risks on corporate sustainability while pursuing operational growth. The Company has established proactive monitoring and improvement procedures focused on risk factors to ensure timely risk management within its business scope, thereby enhancing corporate governance. The disclosed information covers the Company's sustainability performance at major sites for 2023. While the risk assessment primarily focuses on the Company in Taiwan, it may include overseas subsidiaries as necessary, depending on their relevance to core operations and their impact on material topics.

For details on risk management policies or strategies based on the assessed risks, please refer to pages 228-231 of the 2023 Annual Report.

Risk Management

Each business unit defines the risks within the Company's risk management scope, analyzes, identifies, and assess the potential impacts of these risks on the Company, and develops corresponding measures as the basis for risk management.

Risk Management Process

The Company manages risks according to the following procedures: risk identification, risk assessment, risk control, risk supervision, and communication management.

Risk Identification

Issues	Risk Assessment Items
Environment	Environmental protection and ecological conservation
Social	Occupational safety
	Product safety
Corporate Governance	Internal Control system and compliance with regulations
	Enhancing board functions and fulfilling board responsibilities
	Stakeholder Communication
	Information security
	Operational risks and financial status

Risk Assessment

Each business unit defines the risks within the Company's risk management scope, analyzes, identifies, and assess the potential impacts of these risks on the Company, and develops corresponding measures as the basis for risk management.

Material Issues	Assessment Risk Items	Risk management Policies or strategies	Corresponding Report Sections									
Environment	Environment protection and Ecological Conservation	<p>◆ The company has obtained ISO9001/TL9000 and R6.3/R5.7(H) certification and complies with WEEE, RoHS, REACH and CMRT environment protection requirements.</p> <p>◆ The company continues to move towards the concept of green energy in product research and development, production, and sales, and improves the utilization efficiency of various resources to achieve optimal use of raw materials and minimize environmental impact. For example, production materials comply with WEEE, RoHS, REACH and CMRT environmental protection requirements, and paper is effectively reused in the office.</p> <p>◆ The company is aware of the impact of climate change on the global environment and operating activities and has formulated energy-saving and carbon-reduction policies. The management policies can be divided into: greenhouse gas management, water management, waste management, energy management, etc. We strengthen the advocacy and thoroughly implement them in daily operations., such as: office air-conditioning temperature control, and timing automatic shutdown to reduce power consumption etc. Additionally, the company has obtained grade-B total score on the CDP climate change platform, but also signed to join Science Based Targets initiative (SBTi) and became a supporter for the climate-related financial disclosures.</p> <p>◆ The Company's greenhouse gas emission reduction target is a 2% reduction from the base year for Phase I (2022-2025) and a 10% reduction from the base year for Phase II (2025-2030) with a rolling review. The combined greenhouse gas emissions of Scope 1 and Scope 2 in 2023 and 2022 are approximately 148.42 metric tons and 132.13 metric tons, the total weight of waste in 2023 and 2022 is 8.81 metric tons and 8.98 metric tons, and the water consumption in 2023 and 2022 is approximately 1,180 metric tons and 1,180 metric tons.</p> <p>◆ The Company's Water Consumption in the Last Two Years (Tonne): (All Sites and Subsidiaries)</p> <table border="1" data-bbox="416 1659 1120 1856"> <thead> <tr> <th>Year</th> <th>Total Water Consumption (Tonne)</th> <th>Tonne / Million NTD Revenue</th> </tr> </thead> <tbody> <tr> <td>2022</td> <td>1,180</td> <td>1.03</td> </tr> <tr> <td>2023</td> <td>1,180</td> <td>2.1206</td> </tr> </tbody> </table> <p>Consolidated total water consumption and group data have been verified by a third party.</p>	Year	Total Water Consumption (Tonne)	Tonne / Million NTD Revenue	2022	1,180	1.03	2023	1,180	2.1206	4.2 Quality Management Chapter 5 Environmental Sustainability

Society	Occupational Safety	<p>◆ The company's occupational safety and health policy follows the Occupational Safety and Health Act. The company holds occupational safety training and practical drills from time to time each year to increase employees' awareness of occupational safety and strengthen their occupational safety consciousness in order to build a healthy and happy workplace. In order to promote the physical and mental health of our employees and to prevent occupational disasters or accidents, the Company has established an "Occupational Safety and Health Room" for the purpose of creating a safe and comfortable working environment, the maintenance of which includes but is not limited to the following items:</p> <p>(1) Fire facility & Equipment safety management</p> <ul style="list-style-type: none"> A. The offices are equipped with fire extinguishers, smoke detectors, and emergency exit instructions. Employees are required to receive fire protection training once every half a year or every year, including ways to use fire extinguishers and implement evacuation procedures. B. With disaster prevention and prevention as our core concept, we conduct annual fire inspections and check and replace safety facilities including fire alarms and fire extinguishers to strengthen the occupational safety environment in the workplace. C. The company holds fire safety seminars every year and receives retraining at least once every two years in accordance with the regulations for the establishment and management of professional fire prevention management agencies of the Ministry of the Interior's Fire Department. D. Establishment of fire prevention and control measures: <ul style="list-style-type: none"> 01. Monitoring equipment is additionally installed to intensively inspect each plant area, and smoke detectors are installed for online preservation and security, to prevent and respond to abnormalities. 02. The security personnel are required to patrol the plant areas at fixed time and fixed points to confirm whether abnormal conditions exist in the plant areas. Also, SOP for response to abnormalities have been established and implemented. 03. Check the equipment power sockets, and replace old and non-compliant extension lines to avoid fires caused by heat generating equipment. For experimental equipment operated for 24 hours a day, a security control and verification mechanism shall be installed. <p>In 2023, there were 0 fire incidents, with 0 casualties, and the casualty rate as a percentage of total staff was 0. Related fire prevention measures: No incidents occurred.</p> <p>(2) Access control security</p> <ul style="list-style-type: none"> A. Our premises are provided with 24-hour security and public accident liability insurance to maintain and protect the safety of labor and business equipment. B. In order to maintain the safety of all employees, strictly protect the security of the company's intellectual property data and the 	Chapter 7 Employee Wellbeing									

		<p>peace of the workplace, the company has set up access control management measures. In addition to 24-hour security, the office is equipped with access control card machine. Employees must swipe their identification cards to open access control and outsiders must apply and register through operating procedures before entering, so as to control the personnel in and out of the company.</p> <p>(3) Electrical safety</p> <p>A. The Company implements regular patrolling of general electrical box (panel) every quarter.</p> <p>(4) Environmental safety</p> <p>A. In order to protect and provide a healthy and comfortable working environment for employees, the company performs CO2 work environment monitoring twice a year, to ensure good ventilation in the workplace and conduct necessary maintenance, which is in line with the implementation method of labor work environment monitoring by the Ministry of Labor.</p> <p>B. The company cleans and maintains the offices, public areas, and shared facilities.</p> <p>C. The company disinfects the office area and the periphery of the site on an irregular basis.</p> <p>(5) Drinking water safety</p> <p>A. The company tests the water quality of water dispensers every 3 months in accordance with the use and maintenance management measures of continuous drinking water supply fixtures.</p> <p>(6) Occupational safety and security education advocacy</p> <p>A. The company implements occupational safety and health education advocacy annually.</p> <p>B. The offices are equipped with first-aid kits which are regularly updated. Office employees shall receive training for first-aid personnel and obtain relevant licenses, to cope with possible accidental injuries.</p> <p>(7) Statistics of incapacitated injuries: In 2022, there were 3 occupational disasters involving 3 people and 108 days of lost working hours; in 2023, there were 2 occupational disasters involving 2 people and 65 days of lost working hours. While the number of incidents and lost workdays decreased, failing to reach the target of 0 cases. The occupational injury rate as a percentage of total staff was 0.18%. The following improvement measures were implemented:</p> <p>A. Conducting occupational injury investigations.</p> <p>B. Providing training for new staff.</p>	
--	--	---	--

	Product Safety	<ul style="list-style-type: none"> ◆ The company has obtained ISO9001/TL9000 and R6.3/R5.7(H) certification and complies with WEEE, RoHS, REACH and CMRT environment protection requirements. ◆ The products of the company meet WEEE and RoHS environmental protection requirements, energy efficiency, safety regulations, and electromagnetic compatibility standards. ◆ The product design uses renewable and environmentally friendly materials, and new generation design to improve energy efficiency and reduce production waste. ◆ The company continues to move towards the concept of green energy, waste reduction and energy saving in product research and development, production, and sales, and improves the utilization efficiency of various resources to achieve optimal use of raw materials and minimize environmental impact. For example, production materials comply with WEEE and RoHS environmental protection requirements, product designs meet the latest energy efficiency standards and various international regulations, recycled materials are introduced into packaging, and paper is effectively reused in the office. At the same time, renewable energy is used, and excessive packaging is avoided, to lower the impact on the environment. ◆ Customer health and safety, customer privacy, marketing and labeling of products and services of the company are handled in accordance with relevant laws and regulations, and the principle of fair trade. ◆ The Company has set up an independent customer service department to assist customers in using the Company's products and services. It also receives complaints from customers and safeguards their rights and interests. The stakeholder division of the website provides a channel for customers, consumers and suppliers to complain and communicate with each other in order to protect the rights of customers. ◆ The company has established supplier management procedures and formulated a group supplier code of conduct in accordance with the Responsible Business Alliance (RBA) code of conduct, requiring suppliers to comply with all relevant local laws and regulations when operating the company's business. It also requires its suppliers to abide by relevant social responsibilities, so as to work together to enhance corporate social responsibility and create a win-win partnership. 	<p>Chapter 4 R&D and Innovation</p> <p>Chapter 6 Partnerships</p>
--	----------------	---	---

Corporate Governance	Internal controls and compliance	<p>◆ In accordance with the risk-oriented annual audit plan and through the establishment of a governance organization and the implementation of an internal control system, it is ensured that all personnel and operations of the company truly comply with relevant laws and regulations.</p> <p>◆ In accordance with the provisions of “Regulations Governing the Establishment of Internal Control Systems by Public Companies” and other relevant laws and regulations, the company has also established relevant management systems for its finance, business operation, and accounting. Full-time personnel have been assigned in each business unit to take charge of relevant risk management work, to control, lower, and prevent each risk of the company.</p> <p>◆ The company complies with the laws and regulations, and immediately releases important information related to shareholders' rights and interests, and provides relevant information or links on the company's website to enhance investors' understanding of the company.</p>	Chapter 3 Corporate Governance																																														
	Enhancing board functions and fulfilling board responsibilities	<p>◆ In order to enable the directors to understand their legal responsibilities, the company plans relevant training topics for the directors. The company has already combined the resources for education and training of directors of the Group, encouraged directors to engage in continuing education, strengthened the publicity of the provisions of the competent authority and regulations, and irregularly recommended advocacy meetings of the competent authority and information regarding courses designed by external qualified education and training agencies for directors to the directors for consideration and participation.</p> <p>◆ Directors' liability insurance is provided to protect directors from lawsuits or claims when they have performed their duties as good managers.</p>	Chapter 3 Corporate Governance																																														
	Stakeholder Communication	<p>◆ The company attaches great importance to the corporate social responsibility towards employees, customers, investors, suppliers, and the overall environment. Therefore, the board of directors attaches great importance to promoting integrity management and supervising the implementation. The company has good communication channels and dedicated personnel who are responsible for listening to stakeholders' requirements, and explain, reply and track and manage the feedback information collected by different communication channels.</p> <p style="text-align: center;">Stakeholder communication:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr style="background-color: #c00000; color: white;"> <th>Object</th> <th>Communication channel</th> <th>Frequency</th> <th>Topics</th> </tr> </thead> <tbody> <tr> <td rowspan="3">Employee</td> <td>Employer-staff meetings</td> <td>Quarterly</td> <td>Labor relationship</td> </tr> <tr> <td>Conference of Labor Safety and Health</td> <td>Quarterly</td> <td>Health and work environment enhancement</td> </tr> <tr> <td>Employee suggestion box</td> <td>In real-time</td> <td>Employees' voices and opinions insight</td> </tr> <tr> <td rowspan="5">Investor</td> <td>Shareholders meeting</td> <td>Annually</td> <td>Business performance</td> </tr> <tr> <td>Market Observation Post System</td> <td>Aperiodically</td> <td>Information Disclosure</td> </tr> <tr> <td>Company website – Stakeholder</td> <td>Aperiodically</td> <td>Information Disclosure</td> </tr> <tr> <td>Annual report / financial statement</td> <td>Annually/Quarterly</td> <td>Financial status and operating performance</td> </tr> <tr> <td>Spokesperson system</td> <td>In real-time</td> <td>Response Investors' opinion and question</td> </tr> <tr> <td rowspan="3">Customer</td> <td>Business visiting</td> <td>Aperiodically</td> <td>Know and react customers' need and opinion</td> </tr> <tr> <td>Company website – Complaint</td> <td>Aperiodically</td> <td>Grievance procedure</td> </tr> <tr> <td>Company website – Supports</td> <td>In real-time</td> <td>Product introduction and service</td> </tr> <tr> <td rowspan="2">Supplier</td> <td>Call and sit visiting</td> <td>Aperiodically</td> <td>To find out company needs</td> </tr> <tr> <td>Purchaser survey</td> <td>Annually</td> <td>To get close with vendors and relationship maintenance</td> </tr> </tbody> </table>	Object	Communication channel	Frequency	Topics	Employee	Employer-staff meetings	Quarterly	Labor relationship	Conference of Labor Safety and Health	Quarterly	Health and work environment enhancement	Employee suggestion box	In real-time	Employees' voices and opinions insight	Investor	Shareholders meeting	Annually	Business performance	Market Observation Post System	Aperiodically	Information Disclosure	Company website – Stakeholder	Aperiodically	Information Disclosure	Annual report / financial statement	Annually/Quarterly	Financial status and operating performance	Spokesperson system	In real-time	Response Investors' opinion and question	Customer	Business visiting	Aperiodically	Know and react customers' need and opinion	Company website – Complaint	Aperiodically	Grievance procedure	Company website – Supports	In real-time	Product introduction and service	Supplier	Call and sit visiting	Aperiodically	To find out company needs	Purchaser survey	Annually	To get close with vendors and relationship maintenance

	<ul style="list-style-type: none"> ◆ The company has established a whistle-blowing system, and has disclosed the relevant operating methods and reporting channels in the stakeholder division of the company's website, and special personnel or teams will be responsible for investigation. ◆ If there is a case reported, the company will conduct follow-up investigation in a rigorous manner, with dedicated personnel or team, in accordance with operating procedures and in a confidential manner, to protect the whistle blower from improper disposal. 	
Information security	<ul style="list-style-type: none"> ◆ In order to strengthen information security management, the company's sustainable development committee has organized a cross-departmental professional team to set up an information security group, which is responsible for the planning and implementation of information security system, formulation of regulations, regular reviews and internal control audits, and reports to the board of directors at least once a year. ◆ The company plans to apply for joining "Taiwan Computer Emergency Response Team /Coordination Center" (TWCERT/CC) to realize the joint defense of information security data. ◆ The company organizes information security publicity and training and implements drills to prevent the social engineering of malicious emails. 	3.4 Information Security Management
Operation risks and financial status	<p>◆ Operators in Asia have transitioned from cable services to fiber-to-the-home services, sharply reducing the demand for cable data terminal equipment and significantly impacting CastleNet's shipments in the region. This shift contrasts with the ongoing demand in Central and South America, leading to a concentration of sales and posing certain risks. CastleNet has carefully assessed and developed corresponding countermeasures. The following outlines the risks associated with sales concentration and potential response measures</p> <p>Sales concentration refers to a situation where a company's sales of specific products, services, or to particular customers are concentrated within a relatively narrow scope or are highly dependent. This can present certain risks, which the company should carefully evaluate and address. Below are the risks and potential response measures:</p> <ol style="list-style-type: none"> 1. Customer Risk: Relying on a few large customers can lead to business fluctuations. Losing these customers could have a significant impact on revenue. <ul style="list-style-type: none"> •Response Measures: The Company has diversified by exploring new customers and markets. CastleNet is actively developing and participating in bids from other regional operators, especially in Europe. By building strong customer relationships and providing high-quality services, CastleNet aims to increase customer stickiness. The Company also works on developing business strategies with clients to adapt to local market changes and negotiates with chip manufacturers for more competitive pricing to secure orders from different customers. 2. Product Risk: Sales are concentrated on a limited number of products or 	Chapter 3 Corporate Governance

	<p>services, and market fluctuations could significantly impact the business.</p> <ul style="list-style-type: none"> •Response Measures: Diversify product development by expanding into fiber optic terminal products (GPON & XGS PON) and FWA (Fixed Wireless Aggregator) to reduce dependency on a single cable data terminal product. Closely monitor market trends and adjust the product portfolio as needed. <p>3. Supply Chain Risk: Disruptions in any part of the supply chain could affect production and delivery, leading to an inability to meet customer demands.</p> <ul style="list-style-type: none"> •Response Measures: Build a resilient supply chain by establishing long-term partnerships with dependable suppliers. Additionally, identify and engage backup suppliers to address potential disruptions in the supply chain. <p>4. Geographical Risk: Sales concentrated in specific regions could be negatively affected by regional economic or political changes.</p> <ul style="list-style-type: none"> •Response Measures: As previously mentioned, diversify efforts to develop new markets and customers, expanding into other regions or countries to mitigate geographical risk. Understand and observe the regulations and political environments of different regions. <p>5. Financial Risk: Over-reliance on a particular market or customer could lead to financial risks, including payment delays or defaults.</p> <ul style="list-style-type: none"> •Response Measures: Implement strict credit risk management and regularly assess customers' creditworthiness. Build adequate financial reserves to manage uncertainties. <p>◆ Supply Chain Risk Strategy and Response: Disruptions in the supply chain (including raw materials and equipment) will impact company operations. The supply chain risk response plan involves:</p> <ol style="list-style-type: none"> 1. External Supply Chain Changes and Uncertainty <ul style="list-style-type: none"> •Response Measures: Market research, supplier diversification, and ecosystem alliances. 2. Order Demand Exceeds Plan <ul style="list-style-type: none"> •Response Measures: AI forecasting and long-term contracts, limited supply, and allocation optimization. 3. Insufficient Production Capacity <ul style="list-style-type: none"> •Response Measures: Factory capacity expansion, overtime, increasing short-term labor, and diversifying manufacturing sites. 4. External Disasters Causing Supply and Demand Imbalances <ul style="list-style-type: none"> •Response Measures: Convergence of product materials, selection of mainstream materials, and 2nd source alternative materials. 5. Procurement Expediting Plan <ul style="list-style-type: none"> •Response Measures: Clear reporting processes, full mobilization and frequent coordination, and sourcing from the spot market. <p>For more detailed information, please refer to the annual report for Chapter 7, "Section 6: Risk Analysis, Assessment, and Response."</p>	
--	--	--

Risk Control and Supervision

- (1) Risks associated with daily operational activities of each unit are managed and controlled by the respective responsible units.
- (2) For significant cross-departmental crises, the Risk Management Team conducts cross-departmental risk assessments, identifies feasible strategies to prevent crisis events, and develops response procedures and recovery plans based on the nature of the crisis.

Risk Communication

- (1) In addition to disclosing relevant information as required by regulatory authorities, the Company also provides risk management information in the annual report and on the Company website.
- (2) The highest-ranking officer of the Sustainability Committee or their designated representative reports the operations and implementation of risk management to the Board of Directors annually.

3.4 Information Security Management

Information Security Policy

To ensure the confidentiality, integrity, and availability of information, as well as the reliability of information equipment and network systems, and to raise awareness among staff regarding information security, the Company has established an Information Security Management Policy. This policy is designed to protect these resources from any disruption, destruction, intrusion, or adverse actions and intentions. The scope of the policy includes the following areas:

1. Information Security Policy
2. Information Security Organization
3. Personnel Security Management and Training
4. Information Asset Management
5. System Access Control
6. Cryptography
7. Physical and Environmental Security
8. Operational Security
9. Network Security
10. Application System Development and Maintenance Security
11. Response and Handling of Information Security Incidents
12. Outsourced Operations Management
13. Business Continuity Management
14. Information Security Compliance Audits

Specific Management Measures

1. Centralized firewall information and threat visualization
2. Regular vulnerability scans of critical servers and occasional major threat/ vulnerability scans
3. Advanced Persistent Threat (APT) protection for email
4. Information security awareness and training
5. Email social engineering drills
6. Apply to join the Taiwan Computer Emergency Response Team / Coordination Center (TWCERT/CC) for integrated information security defense
7. Self-assessment of employee cybersecurity knowledge

Information Security Execution Results

1. Conducted email social engineering drills using phishing email templates for all employees. Achieved a pass rate of 95.34%, exceeding the target, and continued information security awareness campaigns.
2. Implemented APT protection for email, blocking malicious file and URL emails, which represented 3.1% of external-to-internal email traffic.
3. Performed regular vulnerability scans on critical servers and occasional major threat/vulnerability scans, with timely patches and strengthened protection measures.
4. New employees completed information security and confidential information handling training. To raise overall information security awareness, provided 12 EDMs and security videos, and offered four security training sessions.
5. Firewall incident and log analysis platform. Integrated information from multiple devices, centralized message analysis, improved real-time incident reporting, and reduced information security risks.

Significant Cyber Security Incidents

No significant cyber security incidents affecting the Group's operations occurred in 2023.

3.5 Tax Policy

Tax Policy

CastleNet designates the Finance and Accounting Department as the tax management unit, responsible for the review, identification, and execution of various tax matters. During tax filings, the department follows a tiered authorization process to secure appropriate approvals, assesses the tax implications of major transactions and decisions, and, as needed, seeks advice from external professional tax consulting firms. The tax policy is proposed by the department, with each operational site adhering to the tax regulations of its respective country or region. The department regularly discusses and tracks tax law updates with external tax consulting firms to develop responsive strategies. To enhance the capabilities of tax professionals, relevant personnel participate in various tax seminars annually to stay informed about the latest policies and anticipate future regulatory changes.

To pursue sustainable development and fulfill corporate social responsibility, while upholding professional ethics and principles of ethical management, CastleNet's tax policy is as follows, and is implemented to ensure effective tax governance:

1. Compliance Principle: Adhere to the tax regulations and legislative spirit of the operating location, and honestly report and pay taxes, fulfilling tax obligations responsibly.
2. Transparency Principle: Disclose tax information in financial statements as required, ensuring transparency of information.
3. Arm's Length Principle: Transactions between affiliates follow the arm's length principle and observe the internationally recognized transfer pricing guidelines published by the Organisation for Economic Co-operation and Development (OECD).
4. Active Communication Principle: Establish a relationship of mutual trust and respect with tax authorities.
5. Comprehensive Decision-Making Principle: Consider the tax impact in all major company decisions.
6. Legal Tax Optimization Principle: Utilize legal and transparent tax incentives and avoid tax havens or low-tax jurisdictions for tax planning purposes.
7. Risk Management Principle: Assess related risks and implement appropriate measures when formulating and executing tax policies.

Company Names, Main Operating Locations, Nominal Tax Rates, and Principal Activities

Tax Jurisdiction	Nominal Tax Rate	Group Members	Principal Activities
Taiwan	20%	CastleNet Technology Inc.	Product Design, Manufacturing, and Sales
British Virgin Islands	0%	CastleNet Technology (BVI) Inc.	Investment Holding
China	25%	CastleNet Technology Inc (Kunshan).	Manufacturing and Sales

Tax Payment Status

CastleNet's operations at each location comply with local tax laws. Tax information in financial reports is disclosed in accordance with relevant regulations and standards to enhance transparency.

No tax payable in 2019-2023 Tax Payment History

Chapter 4 R&D and Innovation

CastleNet's primary product is Cable CPE, which combines VoIP and wireless network technologies to offer telecommunications and cable TV operators integrated solutions for fixed broadband networks. With its advanced DOCSIS 3.1 technology, the Company provides ultra-high-speed bandwidth through both wired and wireless interfaces, supporting cloud services and home network device connections. This capability enables operator customers to offer competitive, high-quality services to end consumers. Additionally, CastleNet has expanded its product line to include WiFi 6/6e mesh wireless routers and extenders, giving operators the flexibility to offer diverse interface solutions based on various home network configurations. This approach helps customers more effectively manage and maintain their network devices, enhancing user satisfaction with their network experience.

4.1 R&D and Green Design

CastleNet, a multinational corporation in the network communication sector, is dedicated to social responsibility and environmental protection. The Company consistently applies green principles across all stages of its product lifecycle—design, production, packaging, sales, and service—while ensuring regulatory compliance and customer satisfaction. Its policies focus on energy conservation, green design, pollution prevention, and resource recycling. In 2023, CastleNet invested NT\$131,876 K in research and development, representing 23.70% of the year's revenue.

2019-2023 R&D Expenses over the Years and as a Percentage of Revenue

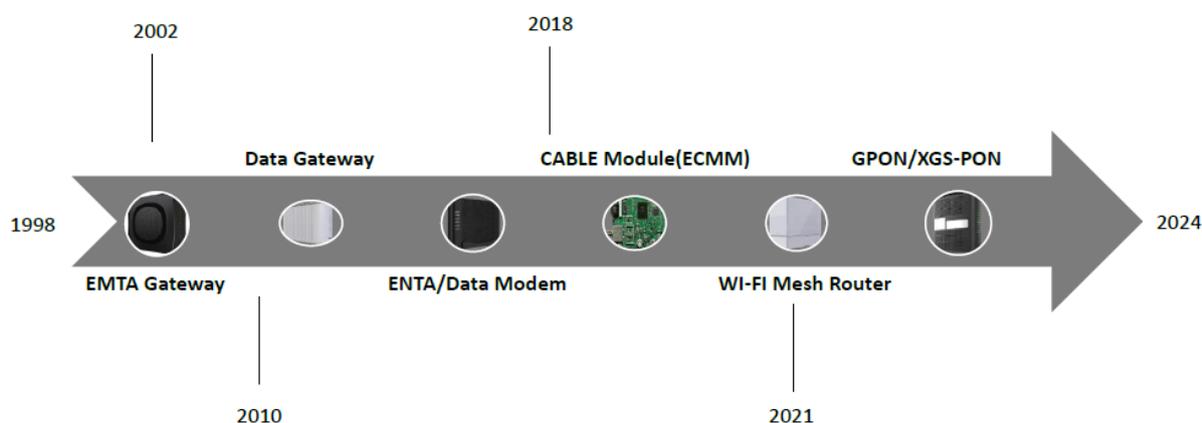

Year	2019	2020	2021	2022	2023
Expenses (NT\$ K)	67,532	70,679	93,665	117,989	131,876
Percentage of Revenue (%)	2.55	5.46	5.53	10.30	23.70

CastleNet's main products include cable modems and home networking equipment. With technological advancements and the growing use of artificial intelligence (such as ChatGPT), network bandwidth demand has surged, expanding the need and application for network products.

As a result, the Company is developing short-term, mid-term, and long-term strategies for both wired (cable/GPON) and wireless (WiFi) communications to address various bandwidth requirements.

Short-, Medium-, and Long-term Goals for Innovation in Network Product Development

Short-term	<ul style="list-style-type: none"> Strengthen the competitiveness of existing products to maximize their usage in response to market demands. Review current R&D achievements, incorporate innovative thinking, and transform them into new proposals.
Medium-term	<ul style="list-style-type: none"> Network products benefit from the evolution of existing communication technologies and the increasing demand for external bandwidth, leading to the development of DOCSIS 3.1+ and XGSPON. Develop Wi-Fi 7 to meet the demands of multimedia and AI cloud computing. Stay attuned to market trends and plan relevant product lines and conduct related technical research and product development to meet new market demands.
Long-term	<ul style="list-style-type: none"> Resource Renewability Green materials use Process intelligence / digitalization Green energy collaboration in industry

CastleNet is committed to environmental sustainability, continuously advancing eco-friendly principles such as energy conservation across product design, production, packaging, sales, and services. In response to the trend toward sustainable development, the Company has set a mid- to long-term goal for green product design: "Introducing low-carbon products and moving toward a circular economy." In 2023, the green design outcomes were reflected in three areas: sustainable materials, sustainable production, and green packaging.

1. Sustainable Materials - Using Low-Environmental-Impact Materials

- Plastic materials are entirely processed without painting or electroplating, allowing for direct recycling after disassembly without the need for additional decomposition.
- The inclusion of regrind resin in plastic materials is allowed, increasing from 0% up to 5%.

2. Sustainable Production

- Reuse of plastic clamshell packaging for assembled injection-molded parts, reducing the use of plastic clamshell packaging.

- Reuse of incoming material turnover boxes to increase the recycling rate of cardboard boxes.

3. Green Packaging

- Instruction manuals are made without a glossy protective film, facilitating recycling and reuse.
- Styrofoam is replaced with cardboard structures in packaging.
- Through simplified design, the use of packaging cardboard is reduced by 10%.
- Some products incorporate QR code printing for accessing installation instructions, cutting the amount of paper used for instruction manuals.

Green Design Case

Partial Replacement of Virgin Materials with Recycled Plastics

CastleNet is dedicated to cutting plastic usage in its products. For instance, the Company reduces the amount of virgin plastic in clamshell packaging by incorporating a specific proportion of recycled plastics during clamshell production. Additionally, several products now feature paper-based packaging to secure the products, and plastic tags have been largely replaced with paper-based designs or QR code printing. The R&D team notes that incorporating recycled materials during manufacturing can lead to brittleness, cracking, or surface imperfections in plastic casings. To find the optimal proportion of recycled materials, continuous experimentation is necessary. Consequently, CastleNet carefully integrates a specific proportion of recycled materials in plastic casing production, ensuring that product appearance, durability, and quality are maintained. This approach lessens the reliance on virgin plastic while also decreasing the product's carbon footprint and the environmental impact of plastics.

ErP "Directive of Eco-design Requirements of Energy-using Products"

Starting from goals to increase energy efficiency and protect the environment, the EuP directive became another regulation under the CE marking in Europe. The EuP Directive 2005/32/EC requires manufacturers and importers to assess the environmental factors throughout the entire life cycle of their products and to optimize design based on the assessment results. To further regulate energy-consuming products, the European Council issued the Energy-related Products Directive (ErP Directive) 2009/125/EC on October 21, 2009, replacing the previous EuP directive to alleviate the environmental impact of products. In response to customer requirements, CastleNet ensured that 47.06% of the models mass-produced or currently being tested by customers in 2023 complied with ErP standards.

4.2 Quality Management

Excellence in quality and customer satisfaction are the foundations and principles of CastleNet's operations and management. We have established the following quality policies to ensure that our quality management system meets customer and regulatory requirements.

CastleNet Quality Policies

- Provide products and services that satisfy customers
- Do the job right the first time
- Continuously pursue improvement and excellence in quality

Quality Management

To ensure that CastleNet follows clear guidelines in product design, sales, and customer service activities, we implement a quality management policy aimed at achieving quality assurance,

customer satisfaction, and regulatory compliance. We ensure that all operations, from material approval, procurement, product design, to manufacturing and shipping, meet quality management standards. Additionally, we verify the effectiveness of our quality management system through regular internal audits and external third-party assessments, continually improving our review and management processes at every stage.

Quality Control Strategy

CastleNet establishes a quality policy and plans the Company’s short, mid, and long-term quality processes and systems to ensure control over the quality of design, processes, personnel, materials, and equipment. This approach guarantees that our products and services meet specification requirements and instills confidence in our customers. We regularly perform comprehensive reviews of both the Company’s and individual units' performance and improvements.

Quality Education Training Outcomes 2023

Quality Education Training Course	Trainees	No. of trainees (person)
ESD Operating Instructions	Materials and Quality Assurance Personnel	20
CMRT and EMRT Introduction	Materials and Quality Assurance Personnel	20

Management System Operation

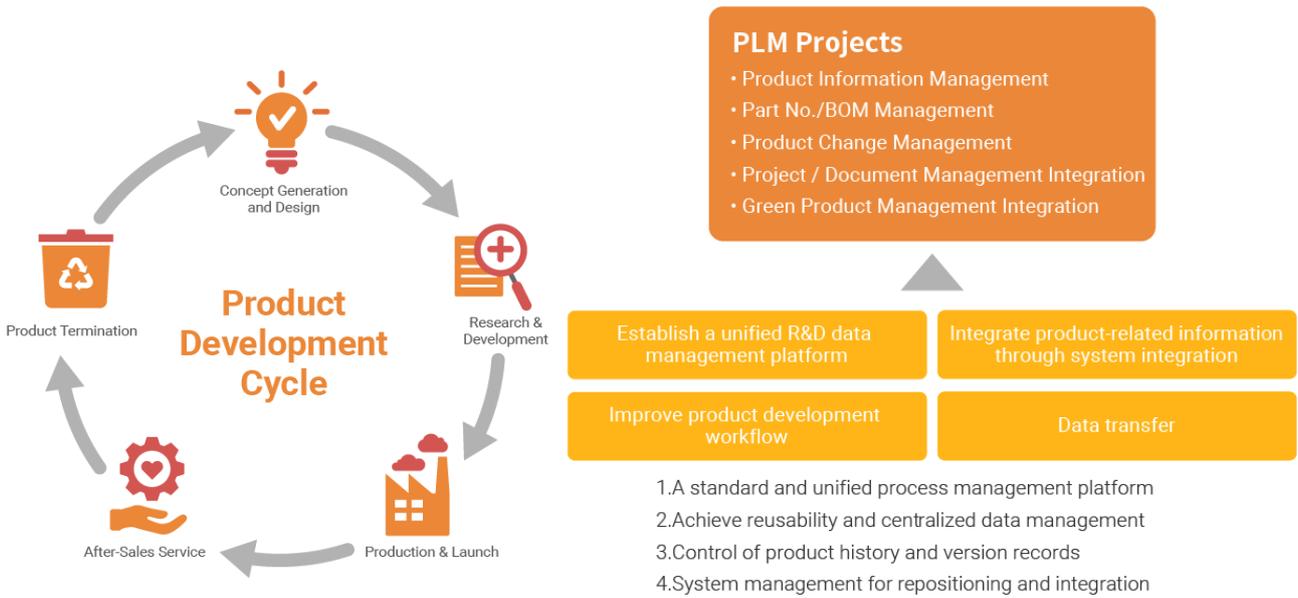

CastleNet builds on the ISO 9001 Quality Management System framework to ensure that products fulfill TL 9000 quality control certification requirements at every stage of production and shipment. We conduct two internal audits and one third-party external audit each year, verifying that our quality management system complies with ISO 9001 standards. In 2023, we did not face any fines or warnings due to violations of product or service regulations, nor did we encounter any incidents of non-compliance with voluntary codes or significant quality defects leading to large-scale product recalls.

Product Lifecycle Management (PLM)

As a part of KINPO GROUP, we follow the step together with the Group to promote Industry 4.0 digital. CastleNet will introduce Product Lifecycle Management (PLM) system in 2024, and the introduced project in April, completed testing and data transfer in the end of 2024, and expect to have it go live in 2025. The PLM system creates a standardized and consistent R&D process management platform to standardize the new product development workflow. Through a source management model, we integrate product information provided by various units into a more complete, accurate and consistent product information flow, effectively coordinating the work of global, interdepartmental development teams, staying on top of design quality and timelines, and improving communication and collaboration efficiency.

The key modules of the PLM system involve new product development data management, part numbering, part classification, approval management, product structure management, engineering change management, etc. It is also connected to existing corporate systems such as eProject, eDQM, ERP (enterprise resource planning) for financial information and CIS. R&D staff can search for material codes or bills of materials (BOMs) via a unified system platform to access centrally managed operations, improving efficiency and ensuring product compliance. Going forward, CastleNet will manage demand, specifications, manufacturing, sales, after-sales service and the final end of life (EOL) from the initial design of a product, all under one roof, regardless of division or business unit,

allowing consistent information and transparent processes throughout the product lifecycle, creating the product data management platform.

New Supplier Evaluation

All new suppliers to CastleNet are required to enter into a procurement contract which contains basic supplier information (e.g. company profile, existing customer base) and accompanying documents Environmental Protection Guarantee, Intellectual Property Rights Guarantee, Conflict of Minerals Policy Statement, ISO Quality Management System Certificate, etc. to ensure that new suppliers adhere to our quality standards. New suppliers are expected to conduct a prior self-assessment based on CastleNet's new supplier audit checklist, which covers quality management systems, process quality control, product green design requirements such as the EU RoHS Directive, and product design and development process control. In 2023, new suppliers were evaluated with a 100% pass rate after rectification.

Regular Supplier Delivery Quality Rating

CastleNet Quality Assurance Center collects and compiles the quarterly report of the previous quarter's supplier's delivery quality ratings. The rating items are divided into three categories: incoming material quality, process material quality abnormalities, and whether the improvement/prevention measures for material quality abnormalities are answered in a timely manner (8D response), etc., with the total rating score being 100 points. No weighting is set for each evaluation item and deduction of points are adopted for all items. The evaluation results are classified into four levels: A (Excellent), B (Pass), C (Observation) and D (Counseling). For suppliers that got a fail with a C or D rating, our incoming quality control (IQC) unit at the factory will request the submission of improvement measures or improvement plans, and if necessary, the IQC unit will refer the case to our headquarter to urge them to improve.

We will continue to keep a close watch on the quality of our suppliers' deliveries. CastleNet's QA Center, Purchasing units and the IQC units are working together to upgrade suppliers with C and D grades to A and B grades, with the goal of continued amelioration in product quality.

Supplier Rating Grades and Scoring Ranges

Grade	Scoring Range	Description
A (Excellent)	Score \geq 90	For good responsiveness to improvement measures for delivery quality and material quality abnormalities, they

Grade	Scoring Range	Description
		are recommended as first choice when new orders are available.
B (Pass)	90 > Score ≥ 80	For fair responsiveness to improvement measures for delivery quality and material quality abnormalities, current procurement can be maintained.
C (Observation)	80 > Score ≥ 70	For a supplier placed on the list of warning, the IQC unit at the factory will ask the supplier to submit an improvement report.
D (Counseling)	70 > Score	For a supplier placed high on the list of concerns, the IQC unit at the factory will ask the supplier to submit an improvement plan and will also request the procuring unit together to urge the supplier to cooperate with continual improvement.

Chapter 5 Environmental Sustainability

As sustainability issues evolve, stakeholders' focus on environmental sustainability now extends beyond just pollution prevention and management. With rapid industrialization and excessive resource consumption, global resource scarcity and the impacts of climate change affect everyone.

CastleNet adopts the strategy of "Innovative Production, Eco-friendliness" to drive environmental sustainability. We actively address issues related to environmental sustainability management, climate change, and net-zero emissions. Our main initiatives, such as "Towards Carbon Neutrality," aim to achieve our environmental sustainability goals.

2023-2033 Environmental Sustainability Promotion Goals

Topics	Short-term	Medium-term	Long-term
	Goals in 2023-2024	Goals in 2025-2027	Goals in 2028-2033
GHG Management	<ul style="list-style-type: none"> Participating KINPO GROUP 50th Anniversary Climate Declaration Propose a carbon-neutral pathway Submit SBT targets CDP Leadership with KINPO GROUP 	<ul style="list-style-type: none"> Achieve SBT interim targets Commit to SBT NET ZERO goals Propose NET ZERO roadmap 	<ul style="list-style-type: none"> Carbon-neutral at headquarters Hold SBT temperature rise below 1.5°C
Energy Management	<ul style="list-style-type: none"> Establish energy baseline and targets 	<ul style="list-style-type: none"> Save 5% on electricity 	<ul style="list-style-type: none"> Save 10% on electricity 100% use of electric company cars

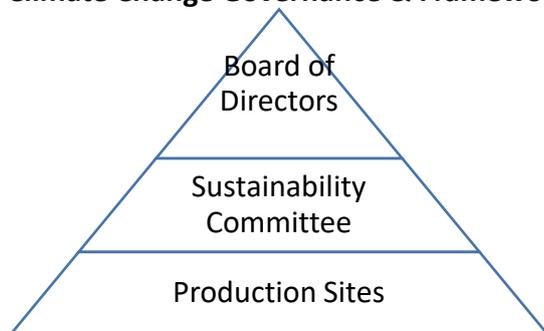

5.1 Climate Change Risk & Management

To address the uncertainties arising from climate change and the rapid shifts in international markets and policies, the Company established the Risk Management Regulations in 2022 and formed a Sustainability Committee the same year. The President chairs the committee, with a senior director from the Quality Assurance Department appointed by the Chair to lead the organization. The committee oversees seven working groups focused on ESG issues, consisting of department heads and other designated personnel. It develops, promotes, and strengthens the Company's key sustainability policies and action plans, conducts regular reviews, tracks progress, and updates

sustainability performance. The committee reports to the Board of Directors at least once a year, enabling the Board to oversee goals and monitor progress.

The Company's Sustainability Committee oversees working groups (WGs), including the Product Safety WG and the Environmental and Ecological Protection WG. These groups manage environmental issues, ensure compliance with environmental regulations and international standards, evaluate sustainability plans, improve resource utilization, and address climate change. The Company also has a Risk Management WG, led by the President, who serves as the highest authority. The group consists of personnel selected by the President from various departments, each bringing different expertise. The Risk Management WG is responsible for the Company's risk management policies, identifying risks as outlined in the Company's Risk Management Regulations, encompassing environmental risk, social risk (including occupational safety and product safety), corporate governance risk, cybersecurity risk, and operational and financial risk. The WG defines all risks within acceptable levels, prevents potential losses, creates value for investors and stakeholders, and achieves optimal resource allocation to ensure the Company's sustainable development goals are met.

Climate Change Governance & Framework

- Board of Directors : The highest decision-making body for climate change risk management, responsible for overseeing and approving risk management policies and key risk management systems, tracking the implementation of risk management and the achievement of performance targets.
- Sustainability Committee: Responsible for setting the vision, goals, policies, and strategies for sustainability. The committee oversees the capital expenditures required for sustainability and supervises and guides the implementation of sustainability initiatives. Established in 2022, the committee is chaired by the President, with senior executives from various units and divisions serving as members. The committee monitors climate change issues, identifies and regularly reviews climate-related risks and opportunities, and reviews and integrates climate change risk management reports.
- Production Sites : In 2023, CastleNet's production sites are operated by affiliated companies under the Group, utilizing an outsourcing model. Under the guidance of the parent company, KINPO GROUP members implement the Group's climate change strategies and actions.

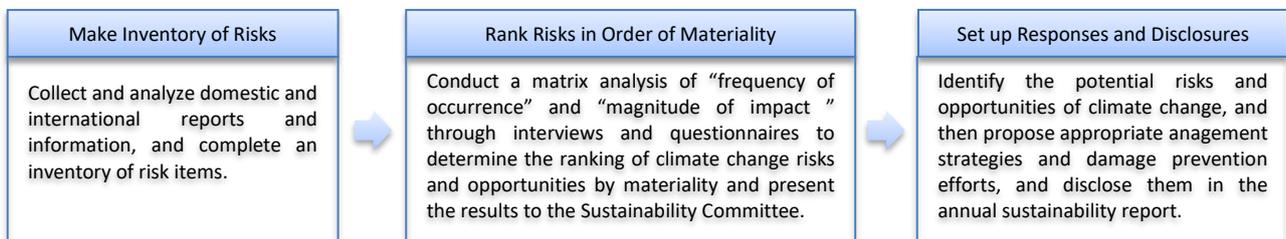

Climate Change Strategy

Through the TCFD framework, we identify the risks and opportunities associated with climate change, analyze the potential impact on our operations and finances, and grasp the opportunities for transformation, thus formulating coping strategies for moving towards carbon neutrality, practicing energy management, strengthening green product design, and promoting sustainable supply chain management, and reaching out to our operating locations worldwide.

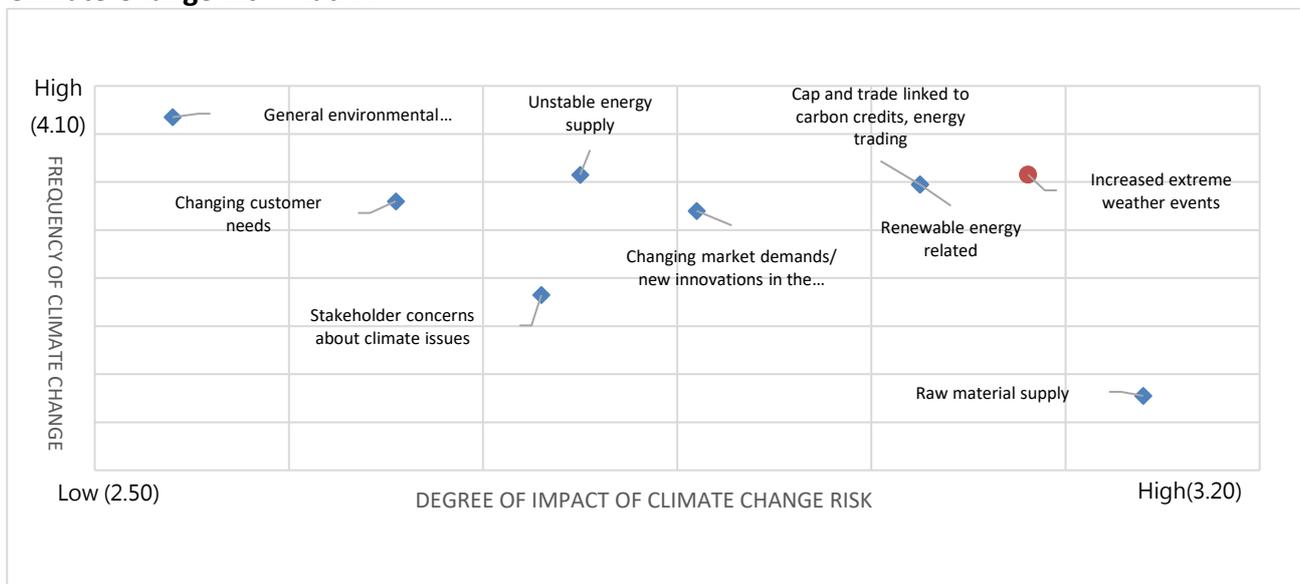

Climate Change Risk Management

The Sustainability Committee is the highest authority for risk management in the Company, while the President serves as the highest supervisor of the Risk Management Team. The President selects team members from various departments based on their professional expertise. To enhance risk assessment and strengthen management functions, the Board of Directors approved the Risk Management Regulations in 2022. The Risk Management Team is responsible for the Company’s risk management policies, identifying risks as outlined in the Company’s Risk Management Regulations, encompassing environmental risk, social risk (including occupational safety and product safety), corporate governance risk, cybersecurity risk, and operational and financial risk. The team defines each risk within acceptable limits, prevents potential losses, creates value for investors and stakeholders, and achieves optimal resource allocation. It also reports to the Board annually on operations and performance to strengthen the Company’s resilience and achieve its sustainability goals.

Risk Identification Process

Climate Change Risk Matrix

<p>R: Aggregate control of greenhouse gases as well as carbon tax and carbon fee.</p> <p>R: Increase of laws and regulations on renewable energy.</p>	<ul style="list-style-type: none"> - The paying of carbon fee results in the increase in operating cost. - The purchasing of RECs results in the increase in operating cost. - The paying of penalties for violation of regulatory 	<ul style="list-style-type: none"> • Strengthen green R&D and innovation. • Improve energy utilization efficiency, and seek opportunities to invest in green energy equipment. • Search suitable renewable energy utilization solutions.

	requirements results in the increase in operating expenses.	
R: Changes in customer requirements and preferences. O: R&D and innovation of new low-carbon products and services.	- The reduction of market sales results in the decline of operating revenue. + The improvement of sales ratio of low-carbon products increases the operating risk.	<ul style="list-style-type: none"> Continually invest in the R&D of low-carbon products. Search raw materials with lowcarbon footprints and reallocate product ingredients. Research, develop, and make innovations in green products.
R: Transformation to low-carbon technology.	- The development of new lowcarbon processes will increase the R&D cost. Financial losses will be caused in case of development failure.	Establish a project R&D team and develop most suitable, low-carbon technology that benefits management.
R: Insufficient climate response actions, resulting in the decline of brand reputation	- The stakeholder's expectations cannot be satisfied, to harm the corporate reputation and lower the market sales.	Actively pay attention and respond to climate-related issues, strengthen the public welfare image of the enterprise, and enhance customers' sense of identity.
R: Net-Zero emission becomes a mainstream trend.	- The setting and operation of carbon reduction equipment result in the increase in cost.	<ul style="list-style-type: none"> Continually implement greenhouse gas reduction actions. Encourage suppliers to take climate mitigation and adaption actions.
O: Improvement of corporate reputation	+ Improvement of financing availability and reduction of capital cost.	<ul style="list-style-type: none"> Improve the enterprise's green image through transparent disclosure. Strengthen corporate governance, and establish a corporate culture of emphasis on climate-related issues and engagement in concrete actions. Improve the performance in sustainability appraisal and establish a favorable image.

Climate Change Risk Matrix

Description of Climate Change Opportunities

Item	Description	Response Strategies
Resource Efficiency / Resilience		
Improving resilience to natural disasters	<ol style="list-style-type: none"> 1. Drought and extreme heat -improving water and energy efficiency. 2. Flood - Flooding scenario analysis, managing in-plant flood risk. 3. Other natural disasters - developing crisis management procedures and build disaster preparedness and response systems. 	<ol style="list-style-type: none"> 1. Implement water and energy-saving measures and introduce the ISO 50001 Energy Management System to continuously optimize energy saving. 2. Raise the foundations or locate major process equipment on higher floors for sites at high risk of flooding or typhoons. 3. Establish Business Continuity Management (BCM) and Business Continuity Planning (BCP) for all types of extreme weather.
Resilience		
Supply chain stability	Maintaining close cooperation with supply chain partners can strengthen the sustainable resilience of the supply chain, reduce the risk of non-compliance with energy-saving regulations, and lower manufacturing costs.	<ol style="list-style-type: none"> 1. Incorporate ESG into supply chain evaluation items, conduct regular on-site/written audits, and track and improve high-risk items. 2. Assist suppliers in sustainability guidance (e.g. GHG inventory, energy-saving improvement, etc.) to enhance the sustainability of the supply chain.
Products and Services		
Enhancing corporate reputation	Proactively proposing climate change measures to reduce risk impacts and help improve sustainability performance domestically and internationally, increasing stakeholders' trust in CastleNet.	<ul style="list-style-type: none"> • Accelerate the following measures to enhance climate change adaptation and mitigation: <ol style="list-style-type: none"> 1. Actively invest in green product design, energy-efficient plant management (ISO 50001), and increased use of renewable energy. 2. Strengthen plant infrastructure and introduce Business Continuity Plans (BCP). • Actively participate in external sustainability organizations such as RBA and CDP with KINPO GROUP, and make stakeholders more aware of relevant actions through our sustainability website, sustainability reports, etc.
Promoting low-carbon green production	<ol style="list-style-type: none"> 1. Improving energy efficiency to save operating costs. 2. Developing a Supplier Code of 	Introduce product green design to improve production efficiency and establish a recycling mechanism to extend the product life cycle.

Item	Description	Response Strategies
	<p>Conduct for Sustainability and implementing an evaluation mechanism.</p> <p>3. Recycling raw materials and increasing the use of recycled materials.</p>	
Energy Sources		
Opportunities for technological innovation	Products that meet energy-saving regulations, meet more energy-efficient features, and bring down overall costs can increase customer willingness to place orders and create revenue growth.	<p>1. Increase investment in product R&D to develop innovative low-carbon products to match customer needs.</p> <p>2. Develop innovative product design capabilities through industry-academia collaboration.</p> <p>3. Organize regular seminars on technical innovation to enhance the knowledge and capability of our staff.</p>

Climate Change Metrics and Targets

1. Conduct Regular Flood Risk Assessments: Evaluate the potential for flooding and establish preventive measures.
2. Monitor GHG Emission Baselines: Ensure the Daye office obtains ISO 14064 certification in line with the Group's standards.
3. Set GHG Reduction Targets: Establish short-term science-based carbon reduction targets and aim for carbon neutrality in the mid to long term.
4. Promote Energy Efficiency and Innovation: Save energy and continue to advance energy improvement projects.
5. Enhance Supply Chain Sustainability and Resilience: Complete risk assessments for critical suppliers by 2024.

5.2 GHG Management

At the 26th UN Climate Summit (COP26), countries agreed to the Glasgow Climate Pact, which aims to limit global warming to 1.5°C. We aim to achieve the establishment of SBTs in the following ways:

1. Following the establishing baseline of KINPO GROUP GHG emissions

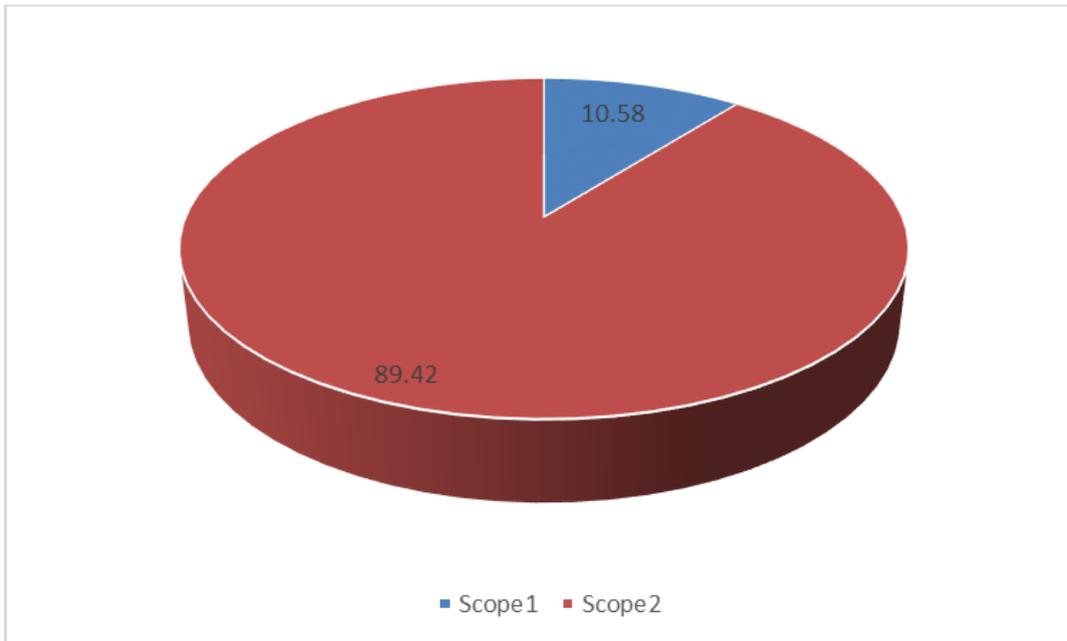

We are promoting a GHG inventory of our factories worldwide, raising the coverage of GHG emissions from 64% to 100%, and ensuring the credibility of our data through third party verification of ISO 14064.

GHG Emissions by Plant 2021-2023

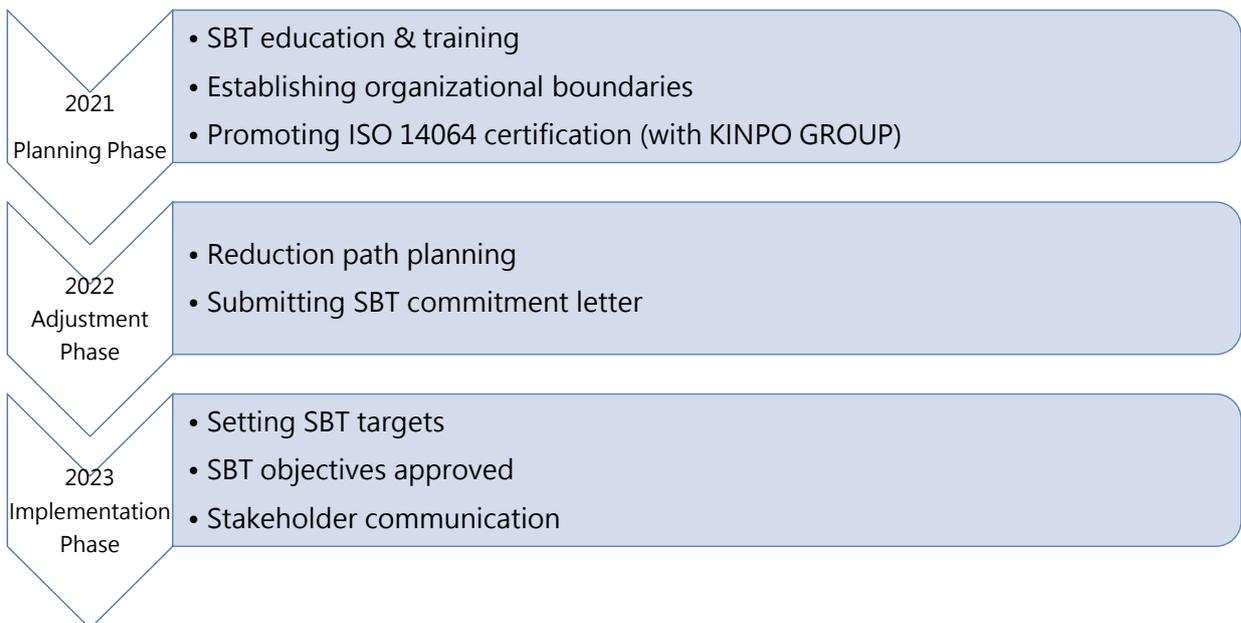

In 2023, verified GHG emissions showed that Scope 1 emissions amounted to 15.68 tonnes CO₂e, representing 10.58% of total emissions, while Scope 2 emissions reached 132.72 tonnes CO₂e, accounting for 89.42%. Compared to 2022, total GHG emissions (Scopes 1 and 2) rose by 12.13% in 2023, primarily due to an increase in staff and the activation of newly leased floors, but per capita emissions grew by only 3.5% compared to 2022. The Company remains dedicated to implementing energy-saving measures to enhance energy efficiency.

Factory/ Scope	2021			2022			2023		
	Scope 1	Scope 2	Total	Scope 1	Scope 2	Total	Scope 1	Scope 2	Total
Beitou Daye	37.65	91.01	128.66	38.24	93.89	132	15.68	132.72	148
Per Capita Emissions	-		2.38	-		2	-		2.07

Share of GHG Emission in Scope 1 and Scope 2 in 2023 (Unit : %)

2. Adoption of Scientific Methods

3. Development of Carbon Reduction Initiatives

Amid the ever-changing industrial structure and technological trends, companies must

continuously innovate to ensure sustainable operations. As a corporate citizen, CastleNet actively promotes GHG reduction through the following methods:

- (1) **Implementing Energy-Saving and Carbon Reduction Measures:** We continually introduce energy-saving and carbon reduction initiatives in the office environment, contributing to carbon reduction goals through process optimization and the improvement or replacement of high-energy-consuming equipment.
- (2) **SBT Carbon Reduction Targets:** In alignment with KINPO Group, we have jointly submitted SBT carbon reduction targets, aiming for a 55% reduction in emission intensity by 2033 compared to 2022 levels, in support of the Glasgow Climate Pact. We have calculated the emission reductions and intensity according to SBT guidelines and plan to submit the science-based targets by March 2024, with execution following SBT approval.

5.3 Energy Management

Energy Management

CastleNet’s Energy Policy

We are committed to managing and improving energy efficiency to achieve sustainability goals. To this end, we pledge to provide the necessary resources to implement this energy policy.

- **Regulatory Compliance**
Comply with government energy regulations and other relevant requirements, and honor voluntary energy-related commitments.
- **Reduction of Energy Consumption**
Commit to energy conservation and energy efficiency, support the procurement of energy-efficient products and services, and the use of renewable energy.
- **Continual Improvement**
Review and enhance energy efficiency on a regular basis to ensure that targets are met by setting and tracking indicators.
- **Enhanced Communication**
Promote energy-saving education and training to raise awareness of energy saving among staff and establish good communication channels to consistently convey the Group's energy policy to stakeholders.

CastleNet will regularly review and update its energy policy to ensure its continued effectiveness and alignment with the Group’s sustainability goals.

We consistently pursue energy management strategies by reducing our energy consumption, enhancing energy efficiency, and raising employee awareness of energy conservation.

Cutting Energy Consumption	Boosting Energy Efficiency	Heightening Staff Awareness of Energy Savings
<ul style="list-style-type: none"> • Newly procured equipment with high energy efficiency as a priority • Energy management in office space (automatic switching of lighting sensors, air-conditioning set above 26°C) 	<ul style="list-style-type: none"> • Equipment automation • Upgrading equipment performance • Raising production yields 	<ul style="list-style-type: none"> • Environmental education courses • Energy saving and carbon reduction presentation sessions

In 2023, CastleNet primarily used electricity, which accounted for 98.43% of the Company’s energy consumption, while vehicle gasoline usage was minimal at 2%.

CastleNet Energy Efficiency Policy:

1. Replace traditional lighting with LED fixtures: Improve lighting efficiency standards by eliminating low-efficiency sources and adopting LEDs. To date, 50 sets of 6.5W*4 LED lights have been installed, estimating a savings of 3,168 kWh.
2. Implement paperless processes: Utilize the Group's EIP and materials systems to digitize documents, forms, and approval processes, thereby cutting paper usage.
3. Use eco-friendly office supplies: During the transition to full digitalization, some processes will still require physical paper documents. In such cases, we choose paper certified by the Forest Stewardship Council (FSC). By using FSC-certified paper, we ensure that the paper is sourced from responsibly managed forests that are protected, support biodiversity, and uphold workers' and local communities' rights, thereby minimizing environmental impact.
4. Turn off lights during lunchtime to implement energy-saving measures.

Water Management

The Company's Water Consumption in the Last Two Years (Tonne): (All Sites and Subsidiaries)

Year	Total Water Consumption (Tonne)	Tonne / Million NTD Revenue
2022	1,180	1.03
2023	1,180	2.1206

Establishing a Water Conservation Policy:

1. Post water conservation slogans to encourage everyone to develop the habit of turning off the water promptly.
 2. Immediately report any water leaks to prevent water waste.
 3. Adjust water usage in public areas, such as pantries and restrooms, by reducing water flow.
- Consolidated total water consumption and group data have been verified by a third party.

Waste Management

The Company's Waste Generation in the Last Two Years (Tonne): (All Sites and Subsidiaries)

Year	Total Waste Generation (Tonne)	Waste / Million NTD Revenue
2022	8.98	0.0078
2023	8.81	0.0158

Waste Management Policy:

1. Sort and recycle resources such as used batteries, toner cartridges, and paper.
2. Manage and dispose of the Company's waste in accordance with legal regulations.
3. Set up food waste bins to reduce overall waste.
4. Company waste primarily consists of general refuse, kitchen scraps, and a small number of used batteries. In 2023, all waste was managed and disposed of by a licensed cleaning company contracted through the Liancheng Office Building Management Center.

Chapter 6 Partnerships

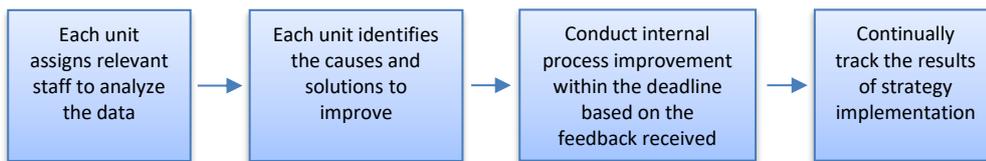

6.1 Customer Service

CastleNet remains dedicated to a customer-centric approach, delivering high-quality products and services while upholding ethical standards and pursuing continuous improvement. We actively

seek innovative solutions, strive for alignment, and aim to exceed expectations, offering exceptional and professional services to enhance customer satisfaction.

Each year, we conduct regular customer satisfaction surveys focusing on three key areas: "Products Quality Satisfaction," "Engineering Technique Satisfaction," and "Interaction Satisfaction." We discuss and incorporate customer expectations into our practices. We have established effective communication channels to promptly, accurately, and efficiently address customer feedback using technological innovation, enhanced professional training, and feedback mechanisms. Additionally, senior management reviews and internal audits are conducted to track and evaluate improvement measures and their outcomes. Through continuous improvement, we steadily boost customer satisfaction.

CastleNet’s Customer Satisfaction Survey Process

Customer Satisfaction Survey Results

We maintain close partnerships with our customers and accurately measure their satisfaction. From 2021 to 2023, our customer satisfaction survey response rate consistently exceeded 80%. In 2023, we surveyed 10 customers and achieved an average satisfaction score of 89, surpassing the Excellent benchmark of 81. We will continue to engage with our customers, addressing their needs and feedback to progressively improve satisfaction.

Grade	Excellent	Good	Fair	Poor	Bad
Score	81-100	61-80	41-60	21-40	0-20

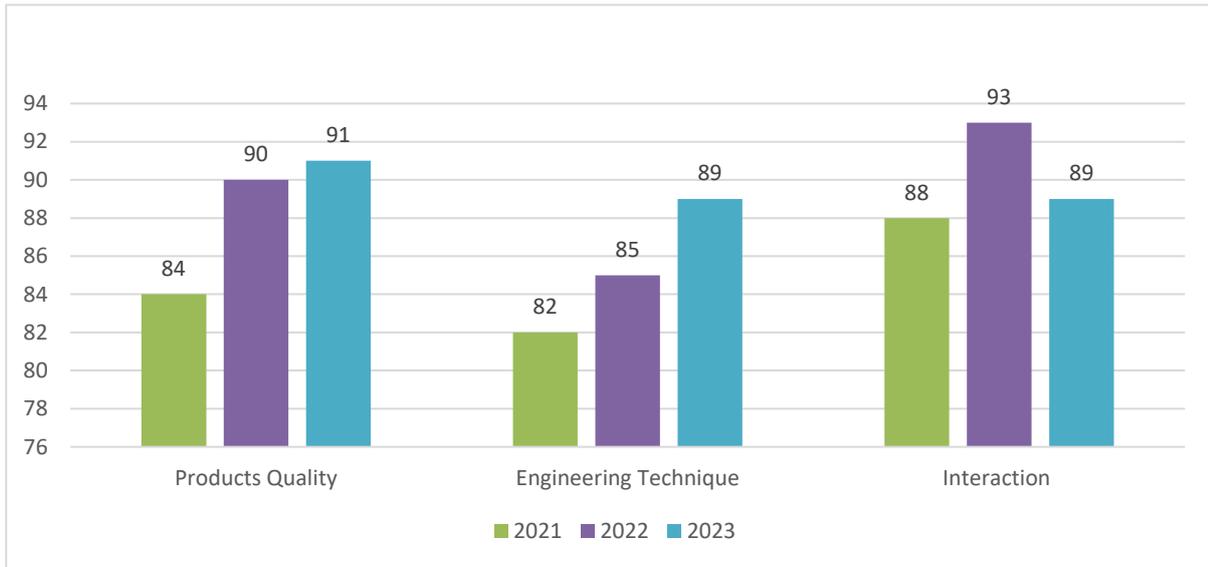

Average Scores of the Four Capability Indicators in Recent Years

Compared to 2022, two capability indicators showed an uptick: engineering technique capabilities grew notably by 4.71% and quality satisfaction rose by 1.11%. However, one indicator, interaction satisfaction, decreased markedly by 4.3%. We are actively working on internal improvements for areas with lower scores.

Year	2021	2022	2023
Product Quality	84	90	91
Engineering Technique	82	85	89
Interaction	88	93	89

Year	2021	2022	2023
Score	84.67	89.33	89.67

6.2 Restricted Substance Management

CastleNet is in full compliance with the restrictions and bans on hazardous substances and responsible mineral sourcing and keeps its customers informed. All of our products conform to international safety standards and international environmental regulations, with compliance information marked on the product or packaging as required by environmental regulations in the region of shipment (e.g. EU RoHS Directive, EU WEEE Directive, EU REACH, Chinese Measures for the Control of Pollution from Electronic Information Products, CE Certification, FCC Certification, BSMI Certification, etc.). We did not commit any breaches of information and labeling requirements or voluntary agreements for products and services in 2023.

Establishment of the IECQ QC 080000 Hazardous Substance Process Management System

We introduced the IECQ QC 080000 Hazardous Substances Process Management System to ensure that all processes from design to production abide by quality and hazardous substances regulations. According to the IECQ QC 080000 standard, we regularly collect and disseminate the latest international green laws and regulations as well as customers' requirements on the management of hazardous substances, and adopt green product design (product design that does not use hazardous substances) at the design and development stage and establish green product process management to minimize the use of hazardous substances and implement product green policies and environmental protection. We regularly review compliance with our Hazardous Substance (HS) procedures, maintain the effectiveness of our management mechanism, identify high and low risk materials, publish a list of restricted substances, and hold supplier conferences periodically to publicize our quality and HS reduction policies and requirements to ensure suppliers

continue to adhere to the KINPO GROUP's Code of Conduct. We also perform annual audits of QC080000 compliance through an external third-party certification body to make sure that the Group's business units are effectively managing hazardous substances.

Education and Training

CastleNet regularly collects and identifies international hazardous substances regulations and responsible mineral initiative (RMI) standards and conducts compliance checks to verify status. Through internal training courses, staff are able to access international regulatory information in real time to enhance organizational knowledge and effectiveness, regardless of location or pandemic. A total of 2 training sessions were held in 2023.

6.3 Responsible Mineral Management

KINPO is a member of the RBA, as a part of KINPO GROUP, CastleNet also adheres to the five principles of the RBA Code of Conduct, including Labor, Health and Safety, Environment, Ethics and Management Systems. We also abide by the RBA's Responsible Sourcing Code and are committed to transparent disclosure of conflict minerals included in our products and components in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Mineral from Conflict-Affected and High-Risk Areas, requiring suppliers to disclose information on the smelters of gold, tungsten, tin, tantalum, cobalt and other minerals used in the supply chain using the Conflict Minerals Reporting Format as part of our corporate citizenship and social responsibility.

To enable responsible sourcing of minerals, suppliers are expected to sign up to the Responsible Minerals Policy Statement for their first partnership with us. We perform responsible minerals probes on an ongoing annual basis across our supply chain using the management tools published in the RMI – Responsible Minerals Reporting Template, including Conflict Minerals Reporting Template (CMRT) and Extended Minerals Reporting Template (EMRT). In addition, we check whether minerals such as tin, tantalum, tungsten, gold, cobalt and mica are used as raw materials for our products, disclose information on the source of minerals and identify whether smelters come from Conflict-Affected and High-Risk Areas (CAHRAs) to ensure that their minerals and metals are supplied from legitimate sources in order to meet our commitment to corporate citizenship and comply with the RBA Code of Conduct. In 2023, we achieved a 100% completion rate of due diligence, all of which satisfied the Conflict Free Minerals requirement, and all of our new suppliers subscribed to the Conflict Minerals Policy Statement.

6.4 Sustainable Supply Chain

2024-2028 Sustainable Supply Chain Goals

Strategies	Actions	2024	2026	2028
Enhance Sustainability Risk Management Require suppliers to adhere to the Group's Supplier Code of Conduct, focusing on improving labor rights, health and safety, environmental protection, business ethics, and management system performance. 	Promote the development of local suppliers to reduce transportation-related carbon emissions.	<ul style="list-style-type: none"> Establish methodology for upstream transportation carbon emissions, including calculation and verification. 	<ul style="list-style-type: none"> Set carbon reduction targets for upstream transportation. 	<ul style="list-style-type: none"> Promote local procurement to meet annual carbon reduction targets.
	Assist suppliers in establishing carbon footprint assessment capabilities and set joint carbon reduction targets. Develop a supplier carbon emissions database to inform procurement decisions.	<ul style="list-style-type: none"> Form a supply chain alliance. 	<ul style="list-style-type: none"> Push alliance members to establish credible GHG emissions data. 	<ul style="list-style-type: none"> Support alliance members in achieving carbon reduction goals.

Supplier Sustainability Management Strategy

KINPO GROUP is an RBA member, and CastleNet is a subsidiary of KINPO. We developed the "Supplier Code of Conduct" based on the RBA Code of Conduct and the Company's sustainability requirements to build suppliers' sustainability capabilities. In managing and selecting suppliers, we consider four dimensions: Quality, Delivery, Cost, and Service (QDCS). Since 2022, we have integrated sustainability issues into supplier management. New suppliers are mandated to sign procurement contracts (including the Supplier Code of Conduct), Conflict Minerals Declarations, and Environmental Protection Guarantees to ensure compliance with KINPO's sustainability standards. Existing suppliers undergo sustainable supply chain management processes so that the Company can identify sustainability risks among critical suppliers, adopting support mechanisms to boost their performance.

The Company continues to implement its sustainable supply chain program under the ongoing supervision and guidance of the Board of Directors. We communicate our commitment to sustainability and our requirements to suppliers, working together with them to achieve high-quality supplies that meet sustainability goals. Each year, in addition to conducting sustainability risk assessments of critical suppliers to ensure compliance with CastleNet's Supplier Code of Conduct, we audit and guide high-risk suppliers and track their improvements. If a supplier fails to make improvements within the specified timeframe, we report to the procurement department and recommend replacing the supplier.

[Supplier Code of Conduct](#)

Supplier Selection Criteria

In 2024, CastleNet will select critical suppliers from the top 70% by transaction value in 2023 relative to the total procurement amount. We will introduce a new supplier sustainability risk assessment in 2024, proactively evaluating suppliers based on their environmental, social, governance, and business-related factors.

Sustainable Supply Chain Management Process

Carried out through a PDCA cycle, our supply chain sustainability management aims to establish core strategies to manage the sustainability risks in the supply chain, ensure suppliers meet CastleNet's standards and improve the sustainability performance of suppliers.

Plan - Sustainable Supply Chain Management Strategy

As a part of KINPO GROUP, KINPO is a member of the Responsible Business Alliance (RBA) and has developed a Suppliers' Code of Conduct in accordance with the RBA Code of Conduct as the overarching principle of sustainable supply chain management to identify and manage supply chain sustainability risks and enhance the sustainability of the supply chain.

Do - Supplier Risk Assessment

We conduct a Sustainability Assessment Questionnaire (SAQ) audit for key suppliers (excluding agents, RBA members, affiliates, etc.) whose purchase amount constitutes over 70% of our total procurement spend. The items assessed include labor rights, health and safety, environmental protection, corporate sustainability performance and management systems, and through analysis, we identify high-risk suppliers and issues of particular concern. The assessment results are categorized into three levels: Level A (low risk): ≥ 81 points; Level B (medium risk): 61-80 points; and Level C (high risk): < 60 points.

Check - Audit Confirmation

For high-risk suppliers, we undertake on-site audits and request for improvement, and within one week of the audit, we will issue a Corrective Action Request for the supplier to make rectifications and reply within one month, and follow up until the case is closed.

Action - Improvement Plan

By identifying high risk issues through risk analysis, we create educational materials based on our own experience to share with our supplier partners.

Plan

Establishing a sustainable supply chain management strategy

Action

Improvement Plans

Do

Supplier risk assessment

Check

Audit Confirmation

▲ Supply Chain Sustainability Management
P.D.C.A. Cycle

Supplier Audits

In 2024, we will adopt the SAQ questionnaire to identify potential risks in our supply chain.

Suppliers scoring below 60 points will be classified as high-risk. To effectively manage sustainability risks, we will conduct audits on these high-risk suppliers to further evaluate and understand their risk status.

For high-risk suppliers whose audit results do not meet the Supplier Code of Conduct, we will require them to propose and take corrective actions within two months and provide supporting documentation of the improvements. Suppliers who fail to address the issues within the given timeframe will be reported to the procurement department with a recommendation for replacement.

Chapter 7 Employee Wellbeing

Employees are a vital asset to the Company and are key to maintaining our competitive edge. Caring for our employees is a fundamental aspect of our human resource development. We recruit talented individuals to build a supportive workplace and work together towards serving our customers and achieving sustainable growth.

We are committed to creating the best and safest work environment by carefully listening to our employees, understanding their needs, and achieving the following results:

1. The headquarters won the 1111 Job Bank's Happy Enterprise Award for the second consecutive year.
2. Since 2020, we have provided childbirth subsidies to employees, offering NT\$66,000 for each newborn, with a total subsidy amounting to NT\$396,000.

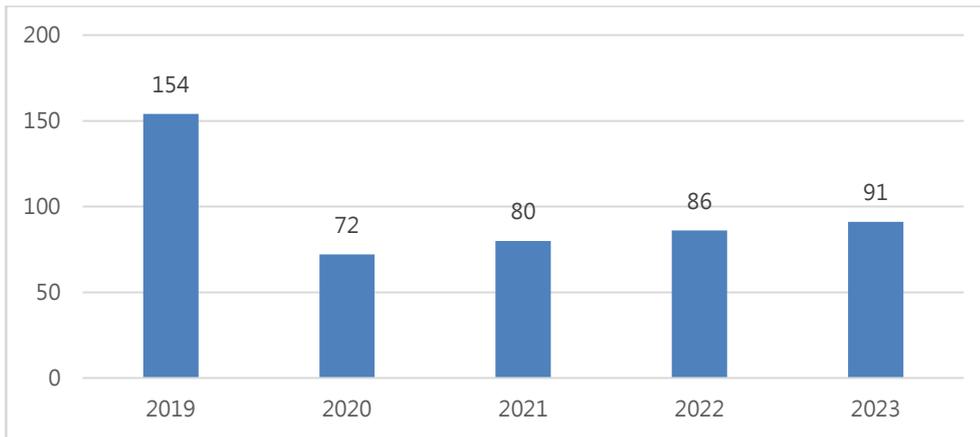

7.1 Human Resource Management Policy

With the belief that employees are the fundamental and most valuable asset of a company, CastleNet respects the uniqueness of each employee and sees "people" as a strategic resource that can create advantages for the organization. In human resources management, we treat all employees fairly, humanely and systematically, and establish appropriate communication channels to give employees the opportunity to express their views. Additionally, we continue to strive for a balance between work and quality of life for our employees, creating an equal and harmonious working environment where they can excel in the right positions. The functional human resources policies are as follows:

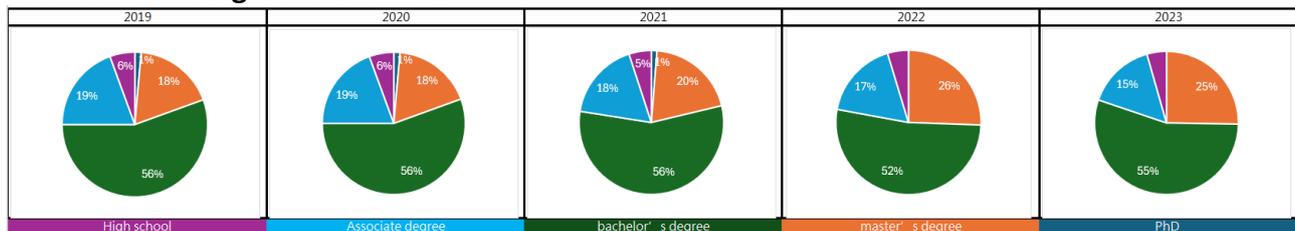

- **Employment Policy:** We correctly assess the human resource needs of the organization and conduct internal and external selection in an open, fair and equitable manner to select like-minded people to join the Company and realize the concept of "the right person for the right position".
- **Training and Development Policy:** Through a wide range of learning tools and a robust training and development system, we strengthen employees' willingness and ability to work, enhance their personal performance to achieve corporate goals.
- **Compensation and Benefits Policy:** We offer compensation and benefits that are fair externally, internally and personally based on market trends and operational considerations.
- **Employee Relations:** We provide quality labor conditions, working environment, communication channels, employee assistance and foster a quality corporate culture to align employee goals with organizational goals, enhance employee happiness and create maximum benefits for employees and employers.

Human Resource Analysis

Headcount

Educational Background Statistics

Employment for People with Disabilities

As regards the employment of the physically and mentally challenged, in line with the efforts of various governments to facilitate the employment of people with physical and mental disabilities, our headquarters has collaborated with social welfare organization Eden Social Welfare Foundation to recruit visually impaired persons to give massage to our staff, so as to help them relieve their tense muscles and achieve the effect of relaxation and elimination of fatigue.

Currently, we employ one person with disability, meeting the employment standards.

Human Resource Mobility

The Company sets its recruitment targets according to the current year's industrial situation and employment needs. In 2023, our headquarters responded to job seekers' questions openly, transparently and immediately through our external recruitment website, while our overseas factories scouted for the best talent by profiling their own recruitment needs.

Newcomers are given an orientation session on the day they report for work, and are introduced to the internal and external environment and hardware and software of the Company to help them adapt to the unfamiliar environment and to provide them with guidance and assistance in their duties. For those who wish to leave the Company, our human resources staff will meet with them to understand their needs and reasons for departure, keep a proper record of the interview, and duly urge them to stay on.

Significance to the Company/ Management Policy	Founded on the idea that talent is the fundamental and most valuable asset of a company, CastleNet has built a diverse and inclusive workplace through diverse and innovative recruitment channels to bring in talented people from all over the world, and is committed to building a happy workplace and contributing to the sustainable growth of our customers and the Company together.
--	--

Policies and Commitments	The Company has set up a responsible unit to take charge of relevant matters, adhering to the relevant labor laws and regulations and international human rights conventions in the places where the Group's factories are based, and striving to protect the rights of employees. Through a fair and open selection mechanism, our employment policy does not differentiate nor discriminate in any form under any circumstances, and we provide reasonable remuneration packages, comprehensive welfare programs, a sound talent cultivation system and staff wellbeing scheme to effectively enhance work efficiency and team cohesion.
Goals	<ol style="list-style-type: none"> 1. Short-term goals <ul style="list-style-type: none"> • Create an equal and harmonious workplace to enable employees to give full play to their talents in suitable positions and promote retention of talents, with a retention rate of over 70%. • Implement employee care and provide various benefit packages. 1. Medium and long-term goals. <ul style="list-style-type: none"> • Set up a better performance appraisal system to motivate staff by awarding them more competitive rewards. • Comply with the relevant labor laws and international human rights conventions in each of the Group's operating locations to remain free from human rights violations and discrimination. • Take care of the physical and mental health of our employees and design a more flexible benefit package based on their needs.

Performance Appraisal and Job Rotation

To understand the performance of our staff and to provide a basis for promotion, training and development, salary adjustment, staff remuneration and performance improvement, we have established the "Staff Performance Management Regulations" and conduct half-yearly appraisals of our staff. We also have an internal transfer mechanism in place, which allows staff to be transferred to other units if they meet the following criteria:

1. In the event of a change in the organization of a department, the staff of the department may be transferred to other units of the same department based on their professional qualifications and wishes.
2. Where a department intends to downsize, the staff chosen for redundancy may be transferred to other units in different departments according to their qualifications and wishes.
3. To nurture outstanding talents, the department head will select and arrange for them to be transferred to different units for training, so as to cultivate them into all-round personnel.

Performance Appraisal Process (Excluding Newcomers)

Promotion Mechanism

To make the most of human resources and their capabilities, and to motivate employees to deliver excellent performance, the Company has created a comprehensive internal promotion mechanism to ensure a smooth promotion mechanism across all positions and to cater for the development needs of the Company and its employees, so as to enhance the core competitiveness of the Company and its employees, thereby boosting the Company's operational performance.

Human Rights Management

As a part of KINPO GROUP, KINPO abides by the labor-related laws and regulations in all of the locations where it operates worldwide, and makes reference to the spirit and basic principles of human rights protection enshrined in international human rights conventions such as the UN Universal Declaration of Human Rights, the UN Guiding Principles on Business and Human Rights, the UN Global Compact, and the International Labour Organization Conventions, and strictly implements the Responsible Business Alliance Code of Conduct to protect the human rights of all its employees, including regular employees, contract and temporary workers, and interns.

The Company's human rights policy applies to the Company and its domestic and foreign subsidiaries and other enterprise organizations affiliated with the Group over which it exercises substantial control, and is applied as follows:

1. Prohibition of Discrimination: We eliminate unlawful discrimination on the grounds of race, color, age, gender, sexual orientation, religion, disability, trade union membership or political affiliation and to ensure equal opportunities in employment.
2. Prohibition of Child Labor: We do not use child labor and do not accept any suppliers or outsourcers who use child labor.
3. Prohibition of human trafficking: The use of forced, bonded (including debt) or contractually bound labor, involuntary or exploitative prison labor, and enslaved or trafficked persons is prohibited.
4. Prohibition of forced labor: Respect employees' freedom, and workers have the right to freely resign or terminate their employment relationship at any time.
5. Reasonable Pay and Benefits: We provide employees with basic pay and benefits that meet or exceed the requirements of local laws and regulations.
6. Protecting employees' freedom of association and collective bargaining rights: Employees

can freely form associations in accordance with the local laws and regulations of the country where they operate, and have the freedom to choose whether to join or not to join trade unions or employee organizations they form. And respect the collective bargaining rights of employees, ensuring communication with employers or management regarding working conditions without fear, retaliation, threats, or harassment.

7. **Diverse and Inclusive Workplace:** We protect the labor rights of disadvantaged groups such as indigenous people, women, migrant workers, contract workers and people with disabilities.
8. **Healthy, Safe and Friendly Workplace:** We provide a safe, healthy and harassment-free workplace.
9. **Maintain the Physical and Mental Health of Employees:** We support and assist our employees in maintaining their physical and mental health and work-life balance.
10. **Keep Communication Channels Open:** We have established an open management style and communication environment that encourages frank expression of opinions.
11. **Respect for Privacy:** We make sure that the collection and use of personal information conforms to regulatory requirements.
12. **Continued Improvement:** We regularly review and evaluate relevant risks and effectiveness and optimize management measures.

We are committed to creating a harmonious working environment and eliminating illegal discrimination and harassment. We respect the uniqueness of each individual and comply with the relevant labor laws and international human rights conventions in each of the Group's factories. We are committed to protecting the human rights of our employees and have instituted reasonable remuneration packages, comprehensive welfare programs, a sound talent cultivation system and appropriate communication channels. Therefore, during the reporting period, we did not commit any human rights offenses such as child labor, forced labor, labor disputes, breach of gender equality and sexual harassment.

7.2 Salaries & Benefits

Descent Salary

The Company has established a remuneration management regulation that combines the employee performance appraisal system with bonus payment standards, and provides year-end bonuses based on operational conditions and individual performance, and shares the Company's profits with employees. On top of providing social, medical and retirement benefits as required by the government, we also offer a wide range of benefits in order to win the hearts and minds of our staff, so that they can contribute to their work. In addition, we abide by government regulations and operate with ethical principles in order to attain our goal of sustainable business and prosperity.

According to the Taiwan Stock Exchange, listed companies are required to disclose the number of full-time employees who do not hold executive positions, average salary, median salary and the difference between the first three items and those in the previous year.

Full-Year Average and Median Salary

Company	Item	2022	2023	Difference
CastleNet	Full-time employees (person)	83	90	7
	Average salary (NT\$)	982,000	1,033,000	51,000
	Median (NT\$)	887,000	1,044,000	157,000

Better-than-Statutory Benefits

Item	Content

Medical Benefits	Medical benefits for staff.

Retirement System

CastleNet has established the "Employee Retirement Rules" in accordance with the Labor Standards Act and the Labor Pension Act. We ensure that employees' pension contributions and benefits comply with these regulations, and we engage an actuary to provide regular actuarial reports to safeguard employees' future pension rights. For employees hired on or after July 1, 2005, we apply the new labor pension system as mandated by the Labor Pension Act.

Maternity Allowance

Starting from 2020, all regular employees or children of employees at the headquarters received a subsidy of NT\$66,000 for each newborn child, a total of 6 employees in CastleNet received maternity bonus and the total amount of the maternity bonus amounted to NT\$396,000.

Year	2020	2021	2022	2023
Number of Recipients (Person)	1	2	2	1
Amount of Benefit (NT\$)	66,000	132,000	132,000	66,000

Employee Welfare Committee

As required by law, the Company allocates 0.05% to 0.15% of its monthly turnover to the Employee Welfare Committee, which uses the funds to provide various benefits to its employees. We have also set up an "Employee Welfare Committee," which is comprised of both employers and employees, with members of the committee being elected by and from among the departments. The committee holds regular meetings to discuss and implement matters and activities related to staff welfare and to design staff welfare activities, including the provision of benefits such as Labor Day cash gifts, birthday cash gifts, wedding and funeral allowances, education grants and scholarships for children, company tours and annual yearend banquets to cater for the daily needs of staff.

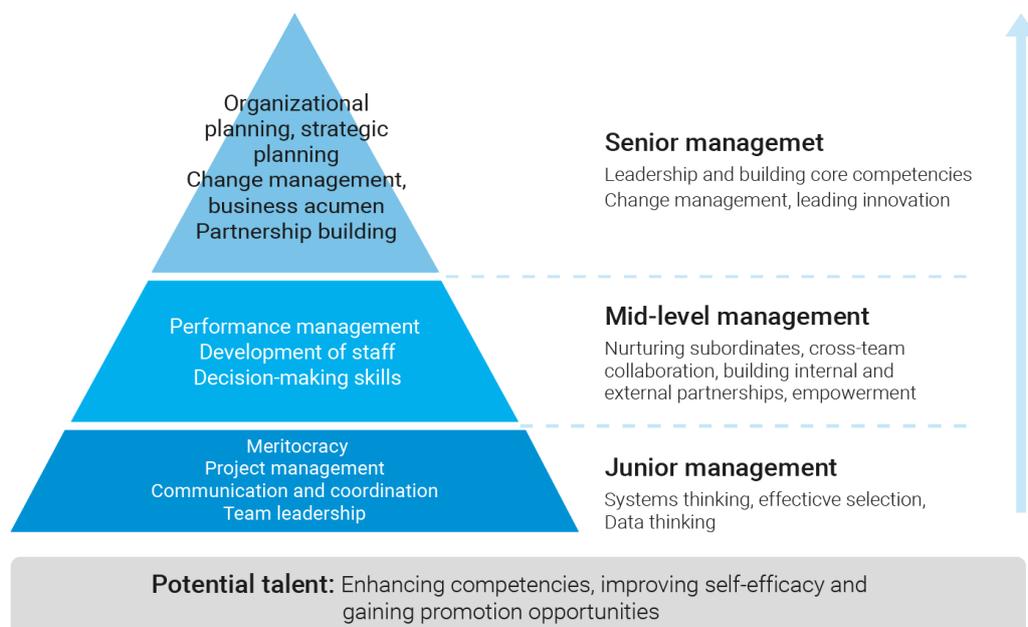

Staff Welfare Programs and Input Costs

Item	2020	2021	2022	2023	Remarks
Benefits (Marriage, Funeral, Maternity and Hospitalization)	13,800	20,000	20,500	16,600	Paid by Employee Welfare Committee

Total	1,781,217	703,674	1,327,526	2,177,877	

7.3 Staff Development

Complete Training Plan

Guided by the belief that "Employees are the fundamental and most valuable asset of a company," CastleNet is committed to providing quality nurturing and development opportunities to help our employees grow stronger. From the first day of employment, we provide our employees with a comprehensive learning plan, continuously exploring new knowledge through flexible learning methods, and creating a growth environment full of innovation and progress. In the face of constantly changing environments, we establish a more diverse and happy workplace, cultivate a sense of diversity, equality, and inclusiveness, so that every member can feel their own value in the organization, and work together towards an inclusive future.

We offer a wide range of programs and resources to help employees realize their self-worth, thereby fostering their identification with the organization and enabling them to grow, thrive and excel together. To fine-tune our staff training programs and to keep them attuned to the needs of the workplace, we design a training needs questionnaire each year to serve as a reference for the direction of training in alternate years, with the goal of helping the organization to continuously improve the value of their people and their competitive edge, as well as helping employees to achieve high levels of productivity and effectiveness.

In the meantime, through the Company's internal basic training (including but not limited to: newcomer training, Group quality-based training, fire drills, legal and information security related courses, etc.), internal training courses for each function (including without limitation: core functions, management functions courses, tool skills training, language training, etc.), external training, and on-the-job training in the department, we have embedded mandatory training courses and credits in the promotion criteria for each job rank, in a bid to strengthen the professional knowledge, skills and expertise and learning motivation of our employees and enhance their performance and continued growth. To broaden the scope of our training and to boost the internationalization of our talent, we have offered additional courses in English and Thai to help our staff enhance their soft language skills. We include compulsory education and training courses and scores in the promotion criteria for various job levels to strengthen the professional knowledge, skills, expertise, and learning motivation of employees, enhance their work performance, and promote their continuous growth.

KINPO GROUP Online Library

KINPO has partnered with HyRead ebook in building the Group's online library, providing staff (including CastleNet staff) with more access to ebooks. The KINPO GROUP Online Library offers a wide range of magazines and books for self-study and further study. Not only are their specialist knowledge reinforced, but through the use of technology and mobile apps, staff can study anytime and anywhere, utilizing fragmented time to enhance their learning output.

KINPO GROUP Online Academy

With the ever-changing environment, digital transformation has become an integral part of business. KINPO's headquarters has also introduced an online learning platform, KINPO GROUP Online Academy, which features convenient, flexible, diverse learning resources, including language

training, tools and skills series (e.g. Excel and PowerPoint), soft-skills seminars (e.g. emotional management, workplace stress relief, etc.) and industry trend seminars to cater to the different needs and learning styles of employees. Our digital learning transformation model will also be extended to other overseas plants of the Group, furnishing employees with more diverse learning channels to enrich their skills and knowledge. In addition, in 2023, we made full use of the online platform's community discussion area, allowing colleagues to continuously grow through interactive communication and ensuring uninterrupted learning outcomes.

7.4 Employee Communication

Promoting Harmonious Labor Relations

Harmonious labor relations and a friendly working environment are the strength driving a company's constant growth. Dedicated to the management philosophy of "Innovation, Harmony and Excellence," KINPO GROUP has attached special significance on labor relations since established. On top of its management philosophy revealing the idea of "harmony," the Company also seeks to understand the voices and thoughts of its employees at all levels through various communication channels in its daily operations. To enhance two-way communication between management and employees and to foster good labor relations, we have built up various channels of communication within the Company, through which employees can express their views and suggestions to senior management, thus eliminating misunderstandings and barriers, and enabling employees' ideas and opinions to be responded to and dealt with immediately.

Channel	Content
KINPO GROUP EIP	Set up the Company's intranet site to publish important corporate news, regulations and activities.
CastleNet Portal System	Publish announcements, file center and resource center, portal website integration applications.
TV Wall	A TV wall was set up at each major entrance of the Shengkeng plant to broadcast the Company's initiatives and activities and invite staff to join.
Staff Computer Desktop	Set up the group's media promotion icon and monthly slogan in the bottom right corner of the computer desktop to promote relevant content.

Create Diverse Communication Channels

The Company provides a wide range of channels for reporting and filing complaints to prevent unlawful, unethical and other violations of government regulations and corporate rules, and has set up an employee mailbox as a way for employees to voice their problems and receive suggestions. Alternatively, employees can lodge a complaint or report to their BU head, local auditing officer, human resources officer, legal officer, local report box, or suggestion box, and the relevant officer will respond and handle the matter appropriately. We are committed to safeguarding the rights and interests of our employees, and we have instituted various policies that take into consideration the rights and interests of our employees so that they are fully protected. The Company expects its employees to live up to its corporate culture of "Innovation, Harmony and Excellence." The Company has maintained harmonious labor relations with each of its plants, and the work rules are governed by the relevant laws and regulations, and the notice period for the departure of employees is regulated under the Labor Standards Act. In 2023, we did not suffer any losses due to labor disputes.

Communication Channels	Description
Physical Mailbox	Physical mailboxes at Daye office.
Online Complaints	A mailbox on the Company's intranet site for staff to fill in forms and express their views directly online.

E-mail	A dedicated e-mail address at CTI audit@castlenet.com.tw for employees to send their opinions.
--------	--

Labor Organization / Employee Welfare Committee

We have a well-established Employee Welfare Committee, which is composed of elected representatives from each department and holds regular meetings to discuss relevant topics. The committees conduct relevant employee welfare measures and activities from time to time to create a work-life balance for employees through various events. In 2023, the Employee Welfare Committee met 4 times.

7.5 Employee Health

Environmental Safety and Health Policy

- Comply with the relevant national and governmental environmental and safety and health laws and regulations.
- Promote environmental and safety and health management-related education and training activities to enhance employees' awareness of environmental and safety and health issues and facilitate their participation and implementation.
- Consistently improve environmental and health and safety performance through pollution prevention, accident prevention, energy conservation and responsible care.
- Establish good communication channels to communicate our environmental, safety and health policies to employees, suppliers, related organizations and the public.

Risk Identification and Assessment

we identify potential safety and health risks in the workplace and develop appropriate control measures to reduce the incidence of occupational hazards and diseases. Risk identification and assessment includes routine and non-routine operations, such as the office is equipped with fresh air ventilation devices to reduce the hazards of carbon dioxide concentration and conducts carbon dioxide concentration testing every six months.

Occupational Safety and Health Education and Training

We are devoted to protecting the health and safety of our employees. We provide a safe and suitable workplace and take an active role in disseminating safety and health information to heighten employees' safety awareness. We have made safety and health education and training courses compulsory for new recruits, teaching them how to avoid possible injuries and emergency response techniques at work, so that they can have a proper and professional consciousness of safety and lower the chance of hazards when they start working.

We educate our staff on occupational safety and health through workplace safety promotion campaigns and internal training, by engaging experts to give lectures at our factory, as well as through our intranet site, e-mails and bulletin boards. In addition, we have set up a comprehensive emergency response procedure and notification mechanism to protect the health and safety of our employees.

Occupational Safety Education and Training at Headquarters 2023

Category	Course Title	Target Audience	No. of people
Safety and Health Training	Occupational Safety and Health Education Training for Newly Employed Workers	New staff	15
	On-the-job Training for Occupational Safety and Health Personnel	Occupational safety and health staff	1

Category	Course Title	Target Audience	No. of people
Fire Training	Fire Safety Training	New staff	15

Safety Management Measures

We are committed to providing a safe and comfortable working environment for our staff and to ensuring their safety and health. To safeguard the safety of the factory grounds, we do so by the following means:

- Employees are required to swipe their cards to enter the factory and wear identification cards for identification purposes.
- Public areas are equipped with surveillance cameras.
- The first-floor gate is patrolled by security personnel 24 hours a day. The office has electronic security measures that will be set up after work to prevent potential safety hazards.
- Installation of surveillance cameras at office entrances and laboratories to ensure the safety of our personnel and assets.

Contractor Safety and Health Management

We continue to practice contractor safety and health management. In accordance with the Occupational Safety and Health Act, we communicate the construction safety and health requirements to our contractors prior to their operations at the plant, and undertake pre-, mid-, and post-construction inspections to prevent occupational hazards at workplaces. In addition, the contractor can communicate with our Occupational Safety and Health Office at any time on matters pertaining to construction safety and health, in order to safely complete all contracted tasks.

Occupational Injury Information

To gain knowledge of the causes and effects of accidents, we have laid down the Accident Investigation and Occupational Injury Handling Procedures to probe into and analyze the source of hazards and keep them in check so as to prevent them from occurring and mitigate the risk of injury to personnel, loss of property and increased costs. For near-miss events that do not result in casualties, property loss or process interruptions, but do cause alarm, we encourage our staff to react promptly while immediately developing preventive measures to pre-empt accidents.

	2021	2022	2023
Hours Worked in a Year (Hours)	160016	167064	180248
Number of Occupational Injury Mortalities (Person)	0	0	0
Number of Serious Occupational Injuries (Person)	0	0	0
Number of Lost Time Injuries (Cases)	0	3* ¹	2* ²
Number of Restricted or Transferred Days without Days away from Work (Cases)	0	0	0
Number of Near Miss Incidents (Cases)	0	0	0
Number of Workdays Lost (Days)	0	108	38
Number of Recordable Occupational Injuries (Cases)	0	3	2

Notes:*

1. In 2022, the number of serious occupational injuries was as follows: 1 case occurred on the office top floor when an employee slipped while running to avoid the rain; 2 cases were due to traffic accidents during commuting.
2. In 2023, the number of serious occupational injuries included 2 cases resulting from traffic accidents during commuting.

	2021	2022	2023
Occupational Injury Mortality Rate	0.00	0.00	0.00
Serious Occupational Injury Rate	0	3.59	2.22
Total Recordable Incident Rate (TRIR) or	0	0.3.59	2.22

	2021	2022	2023
Lost Time Incident Rate (LTIR)			
Days Away/Restricted or Job Transfer Rate (DART)	0	3.59	2.22
Near Miss Frequency Rate (NMFR)	0	0.00	0
Lost Workday Rate (LWD)	0	129.29	42.16
Occupational Injury Rate	0.00	0.036	0.022
Occupational injury rate as a percentage of total staff	0	0.3%	1.08%

Notes:*

1. Occupational injury mortality rate = (number of occupational injury mortalities x 200,000) / hours worked in a year.
2. Serious occupational injury rate = (number of serious occupational injuries) x 200,000/hours worked in a year.
3. Total Recordable Incident Rate (TRIR) or Lost Time Incident Rate (LTIR) = ((number of recordable occupational injuries + number of lost time injuries) x 200,000) / hours worked in a year.
4. Days Away/Restricted or Job Transfer Rate (DART) = ((number of lost time injuries + number of restricted or transferred days without days away from work) x 200,000)/hours worked in a year.
5. Near Miss Frequency Rate (NMFR) = (number of near miss incidents x 200,000) / hours worked in a year.
6. Lost Workday Rate (LWD) = (number of workdays lost x 200,000)/hours worked in a year.
7. Occupational injury rate = number of recordable occupational injuries/average number over the year.
8. Recordable occupational injuries do not include those occurring during commuting.
9. Severe occupational injuries are defined as conditions that cannot recover within 6 months.
10. Occupational injury rate = (Annual occupational injuries / Annual total staff) * 100%

Occupational Injury Improvement Measures:

1. Conduct occupational injury investigations.
2. Provide training for new staff.
3. Improve unsafe and unsanitary working conditions.
4. Promote traffic safety awareness.

Employee Health Screening and Follow-Up

We are concerned about the physical and mental health of our employees. CastleNet provides free personal health check-ups for all employees every year to track their health status. In addition to the health check items stipulated by laws and regulations in 2023, CastleNet actively adds multiple cancer screening items for employees, such as liver cancer, oral cancer, and male and female cancer screening, to allow them to understand their own health status. In 2023, a total of 70 employees participated in the health examination.

Care for Female Employees

CastleNet is concerned with the issue of female employees, emphasizing diversity and inclusion, echoing gender equality, and enhancing the welfare and rights of women in the workplace through various means.

- A breastfeeding room and unlimited breastfeeding leave during working hours are available for female employees.
- We provide maternity leave, pregnancy check-up leave, paternity leave and leave without pay for childcare as required by law.

Unlawful Assault

CastleNet has declared zero tolerance for workplace violence to ensure the physical and mental health of all employees, to prevent internal and external workplace violence against all employees in the performance of their duties, and to build a work culture of safety, dignity, non-discrimination, mutual respect and tolerance, and equal opportunity. All employees can report cases of workplace abuse through the complaint hotline and mailbox, and there were no workplace abuse cases at KINPO in 2023.

Hike Together for Health

We are dedicated to maintaining a balance between work and life for our employees. By organizing outdoor activities, employees can unwind and relieve work-related stress. In 2023, we participated in the “Hike Together for Health” hosted by the Group headquarters at the Battleship Rock hiking trail, allowing employees to rejuvenate and refresh themselves amidst their work responsibilities. This event offered employees a chance to break away from the busy pace of life, appreciate life's beauty at a relaxed pace, reinvigorate their spirits, foster innovative energy, and enhance creativity and focus at work. A total of nine employees signed up for this event in 2023.

7.6 Employee Participation

1. Green KINPO Lecture Series

The Group regularly organizes relevant lectures to deepen employees' understanding of trending topics through expert insights. Physical lectures are assessed and recorded on-site, then converted into online courses for KINPO Group's online academy. This allows employees who cannot attend in person to view the lectures online.

Date	Topics	Speakers	Attendance
4/27	Corporate ESG - Saillig Towards Sustainability with Green Buildings*	Chung-jen Chen	1
7/25	Biodiversity – Nature as Our Home	Meng-jou Chi	7
9/14	Carbon Credits Strategy Series (Part 1) – How to Obtain Carbon Credits? Understanding Essential Mechanisms!	Ching-hui Liao	7
9/19	Carbon Credits Strategy Series (Part 2) – Introduction to Caron Trading Platforms? Essential Carbon Asset Management Strategies in the Carbon Era		4

*Earth Day Series Activities

2. Earth Hour - Lights Out One Hour

The World Wide Fund for Nature initiated Earth Hour in 2007, encouraging people to turn off "non-essential lights" for one hour at 8:30 PM local time on the last Saturday of March every year. It has become the world's largest voluntary public carbon reduction campaign. Over 192 countries, including more than 18,000 landmarks such as Taipei 101, participate in this international environmental movement.

CastleNet followed KINPO GROUP's Shenkeng headquarters on the evening of March 25 by switching off exterior signs and non-essential lighting. The managers and employees held signs to promote the "lights-off" action, emphasizing that under global climate change, everyone, regardless of age or status, has the power and responsibility to make a difference in the world.

3. Mother's Day Activities

May is the month to celebrate Mother's Day, which varies in date worldwide but is mostly observed on the second Sunday of May. On this special day, we prepared Ferrero Rocher chocolates and carnations for all employees, wishing a "Happy Mother's Day" to all mothers.

4. Challenge for Hands-on Dads – Father's Day Activities

On the eve of Father's Day, the Welfare Committee honored each family pillar, expressing heartfelt gratitude for their hard work and dedication. The Company specially prepared Alishan "Aba" black tea for employees, enabling them to savor its aroma while enjoying a moment of tranquility and relaxation. The Shenkeng headquarters also organized a series of fun activities for male employees to unwind and showcase different sides of themselves. Events included the "Chef Extraordinaire" and "Super Dad" challenges, where super dads displayed impressive cooking skills in the kitchen or demonstrated patience and expertise in diaper changing and bottle preparation. These activities not only brought employees closer but also filled this special Father's Day with joy, laughter, and lasting memories. We hope that every employee feels the warmth and cohesion of the Company family on this special day and continues to spread this camaraderie in their work and personal lives.

5. Stair Climbing Competition

To encourage staff to ascend the stairs more and take the elevator less, the Group organized a stair climbing activity, which not only saved electricity but also prevented them from sitting in office for long hours and urged them to exercise more to keep themselves fit. Stair Climbing Competition is an event since 2022, a series of promotional activities were carried out to provide good air quality in stairwells, we relocated the smoking area to a zone that did not affect the air quality in stairwells, in accordance with the LEED standard for green buildings, which stipulates that smoking areas should be 8 meters away from building openings. Secondly, in order to give our staff a suitable brightness and a good mood when climbing the stairs, the WELL Healthy Building Standard recommends that the stairwell should be adorned with beautiful pictures to add to the aesthetic appeal. The addition of scenic images in the stairwell, combined with explanatory text of the SDGs, slogans to promote stair climbing and the Company's sustainable ESG policy.

The event was the same as before, using NFC sensors and the Group's internal app – KINPO GROUP eFrom to collect points, with each floor climbed being recorded with a swipe of a card. Achieving 450 points within 3 months of the event can earn the 'Healthy Living Award'. The staff responded enthusiastically and could be seen on the staircases before and after work and during lunch break. A total of 41 colleagues from CastleNet participated in this event, with a cumulative total of over 20,000 stairs.

Chapter 8 Social Engagement

For the Chinese characters “ 企業” (enterprise), if you take away radical “ 人” (people) out of “ 企,” you get “ 止”(stop). As such, it is clear that people are the most important asset of a business. We are therefore convinced that social inclusion and community involvement are an integral part of corporate development. As a part of KINPO, we are not only committed to promoting a diverse and inclusive workplace culture, but also actively participates in activities organized by the Hsu Chao Ying Foundation and pushes for various charity services. These services include caring for the vulnerable seniors and families in the community, education programs (e.g. the Dreams Come True project), support for the local community, volunteer services, etc. Moreover, we also encourage our staff to spend their time outside work to engage in social service work, so as to realize the spirit of "all employees for charity" and the concept of corporate and social integration. "All employees for charity" will be an essential direction for our Company going forward, and we will continue to dedicate ourselves to making more contributions to the progress and development of society.

We have long supported social welfare, cared for vulnerable groups, and invested in rural education through the Hsu Chauing Social Welfare Charity Foundation. The kindness of CastleNet employees has been pooled into a warm current, spreading like ripples to reach more people in need, so that love can soar and land in every corner of the world.

8.1 Caring for the Underprivileged

1. Dream Fulfillment Project - Children's Day Activity

Vulnerable children frequently lack adequate support due to their family environments. The Hsu Chauing Social Welfare Charity Foundation aims to raise awareness of their needs by inviting employees to partake in Children's Day caring activities. Through this initiative, employees joined hands to support vulnerable children, offering care and encouragement to boost their confidence and courage on their educational journey. In 2023, the Group, including CastleNet, assisted 30 underprivileged children through this program.

2. Let Love Soar Together - Christmas Event

The Group at the headquarters hosted the "Let Love Soar Together" charity concert and volunteer recognition event on the joyful eve of Christmas, expressing gratitude to volunteers who shine as beacons of kindness in others' lives through their actions. The event featured performances by charitable organizations, such as energetic dances by individuals with Down syndrome, heartfelt vocals and instrumentals by visually impaired performers, and seamless dances by deaf dancers. Employees joined in, moving to the music, clapping along with the rhythm, stirring up passion and emotion on a cold winter day. Local businesses were also brought in to set up booths, boosting the local economy. Nearly 30 employees at the Group, including CastleNet, participated, raising a total of NT\$37,200, all donated to the Hsu Chauing Social Welfare Charity Foundation for rural education.

8.2 Education Programs

“Dreams Come True Project” - Living the Dream with Children

Many factors, such as rural location, family background and financial situation, should not stand in the way of a child's happy growth and learning. We are there for these children with a positive and loving heart! The foundation hopes to build children's self-confidence through encouragement and companionship, while nurturing their skills and talents, developing their interests and abilities for future development, and helping them take on the challenges of life with courage.

In 2023, the foundation's Dreams Come True program raised NT\$26,000 from 5 staff members of CastleNet to help make children's dreams come true.

[Dreams Come True Project](#)

The Dreams Come True Project Changed Their Life (Thank You Letters)

<p>Hao Hao (pseudonym) Hao Hao's father passed away due to illness, leaving his mother to support their two children single-handedly through their education. She works as a dishwasher in a restaurant, earning a modest income. Since the pandemic outbreak two years ago, her income has sharply declined, nearly reaching zero. Despite these hardships, Hao Hao excels academically, diligently serves as a class officer, and gets along well with peers. Particularly talented and persistent in taekwondo, Hao Hao's potential shines through. By chance, Hao Hao joined the "Dreams Come True Project" of the Hsu Chauing Social Welfare Charity Foundation, where he receives monthly support and care from a sponsor. This assistance allows Hao Hao to focus</p>	<p>Hsiao Ching (pseudonym) Hsiao Ching, who is cared for solely by her grandmother on regular days, was born when her parents were very young and are currently absent due to various reasons. Her grandmother supports her through odd jobs to provide for the child. Under her devoted upbringing, Hsiao Ching has shown remarkable determination. Besides actively participating in badminton team practices, she is diligent in her studies, excelling in subjects like arts and painting. She also interacts well with classmates, showing empathy, optimism, and a cheerful disposition. Hsiao Ching was nominated for the "Dreams Come True Project" by a teacher. Her grandmother joyfully reminds her, "It's okay for others to support us now. In</p>

<p>on his studies and develop his talents without being affected by difficult circumstances. Hao Hao has also achieved remarkable results in taekwondo competitions and aspires to represent Taiwan in international tournaments, shining brightly on the world stage.</p>	<p>the future, I hope you become a person who can give back and help others succeed!" Later, Hsiao Ching excels in badminton and emerged victorious in the National Elementary School Badminton Championship. The foundation eagerly anticipates her future achievements in the sport!</p>
--	--

8.3 Caring for the Local Community and Volunteer Services

1. "Jingmei River Charity Care Project" - Adopting a Riverbank

KINPO has initiated the "Jingmei River Charity Care Project" in 2022, which was held regularly every other week, including litter picking and flower maintenance, inviting staff to do their part for a sustainable environment and raising awareness and action for environmental protection and beautification. This activity not only improved the working environment and quality of work for the staff, but also enhanced their job satisfaction and engagement, and helped to preserve the environment in the long run.

We believe that the riverbank clean-up campaign would spread the concept of caring for the earth to every one of our employees and neighbors. These efforts would not only improve the quality of life and living experience of the people in the local community, but also help to stimulate social participation and responsibility, and indirectly build up a good social image of KINPO and facilitate the establishment and development of a harmonious relationship between the Company and the community. Residents in the neighborhood applauded KINPO's dedication and left messages of appreciation on the local Shenkeng Facebook group, further enhancing the Company's image, cohesiveness and solidarity.

In 2023, 21 sessions were staged, with 506 participants and about 57 kg of refuse cleared out with the whole KINPO GROUP. We will continue to contribute to Jingmei River and follow the SDGs agenda, believing that the power of goodness can continue to have a positive impact. Moving forward, we also intend to bring in neighboring primary schools to volunteer and participate in environmental protection to heighten public awareness of the importance of environmental issues.

2. "Bag Recycling" - Paper Bag Reuse Project

Disposable plastic bags are commonly used in daily life. To cut down on overuse, our Taipei headquarters launched the "Bag Recycling" paper bag reuse project by inviting employees to collect

unused paper bags from their homes and turn them in to the Company's "Paper Bag Bank," so that instead of using plastic bags when needed, they can choose to take the paper bags from the bank and then put them back when not in use. Apart from the Company's internal use, surplus paper bags were also donated to establishments that used recycled paper bags, including Heping Island Park, Charles Handmade Baking, Renliju Restaurant and Decathlon sporting goods retailers, allowing the influence to extend not only within the Company but also to the community at large, creating a force for change.

3. Small Appliance Repair Clinic

The Group is actively involved in the repair movement, beginning with the "Small Appliance Repair Clinic" initiative to combat electronic waste by promoting resource reuse over disposal. In 2023, the Group collaborated with NanjiFix and Shenkeng District's Wanshun Borough warden Yang, Wen-te. In the morning, they offered educational training sessions for volunteer staff, imparting basic repair skills and insights on forming local repair communities. In the afternoon, they provided free diagnostics and repairs to residents at the Wanshun Civic Center in Shenkeng District. Through knowledge sharing and practical actions, the Group is dedicated to mainstreaming the concepts of "repair" and "repair instead of buying," advocating them as sustainable living choices. This initiative seeks to minimize carbon emissions associated with new products, promote a circular economy, and support environmental restoration efforts.

Fifteen employees from the Group, including CastleNet, along with their families, volunteered for this event. They received 34 items in total, successfully mending 22 of them, achieving a repair completion rate of 65%. This effort contributed to an approximate reduction of 101.6 kilograms of waste and saved 946.1 kilograms of carbon emissions. Appliances that couldn't be fixed often required parts that could be sourced for future repairs. Even as the event extended from day into night, the employees' enthusiasm never waned. Witnessing the smiles and gratitude of borough residents as they received their repaired appliances transformed fatigue into a sense of

accomplishment. This initiative not only honed repair skills but also highlighted the importance of designing products with easy reparability in mind. As environmental challenges intensify, we hope that everyone will embrace repair as a starting point, transform waste into value, bridge the gap to net-zero, and actively create multiple sustainable, circular living possibilities.
